b. Prinsip Konsolidasian

Entitas (entitas induk) yang mengendalikan satu atau lebih entitas lain (entitas anak) menyajikan laporan keuangan konsolidasian. Investor, terlepas dari sifat keterlibatannya dengan entitas (*investee*), menentukan apakah investor merupakan entitas induk dengan menilai apakah investor tersebut mengendalikan *investee*.

Investor mengendalikan *investee* ketika investor terekspos atau memiliki hak atas imbal hasil variabel dari keterlibatannya dengan *investee* dan memiliki kemampuan untuk memengaruhi imbal hasil tersebut melalui kekuasaannya atas *investee*. Dengan demikian, investor mengendalikan *investee* jika, dan hanya jika. investor memiliki seluruh hal berikut ini:

- (a) kekuasaan atas investee;
- (b) eksposur atau hak atas imbal hasil variabel dari keterlibatannya dengan *investee*; dan
- (c) kemampuan untuk menggunakan kekuasaannya atas *investee* untuk memengaruhi jumlah imbal hasil investor.

Investor menilai kembali apakah investor mengendalikan *investee* jika fakta dan keadaan mengindikasikan adanya perubahan terhadap satu atau lebih dari tiga (3) elemen pengendalian.

Konsolidasi atas *investee* dimulai sejak tanggal investor memperoleh pengendalian atas *investee* dan berakhir ketika investor kehilangan pengendalian atas *investee*.

Entitas induk menentukan apakah entitas induk adalah entitas investasi. Entitas investasi adalah entitas yang:

 (a) memperoleh dana dari satu atau lebih investor dengan tujuan memberikan investor tersebut jasa manajemen investasi; PT INDAH KIAT PULP & PAPER Tbk

- PSAK No. 73, "Leases."
- Amendment to PSAK No. 1, "Presentation of Financial Statements".
- Amendment to PSAK No. 15, "Investments in Associates and Joint Ventures" on Long-term Interest in Associates and Joint Ventures.

b. Principles of Consolidation

An entity (the parent) that controls one or more other entities (subsidiaries) presents consolidated financial statements. Investors, apart from the nature of their involvement with an entity (investee), determine whether they are a parent by assessing whether they controls the investee.

An investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Therefore, the investor controls the investee if, and only if, it has all of the following:

- (a) power over the investee;
- (b) exposure or rights to variable returns from its involvement with the investee; and
- (c) ability to use its power over the investee to affect the amount of the investor's returns.

An investor reassess whether it controls an investee if facts and circumstances indicate that one or more of the three (3) control elements have changed.

Investee is consolidated from the date the investor obtains control of investee and continues to be consolidated until the date that such control ceases.

A parent determines whether it is an investment entity. An investment entity is an entity that:

 (a) obtains funds from one or more investors for the purpose of providing investment management services;

3. KEBIJAKAN AKUNTANSI SIGNIFIKAN YANG DITERAPKAN (Lanjutan)

- (b) menyatakan komitmen kepada investor bahwa tujuan bisnisnya adalah untuk menginvestasikan dana yang semata-mata untuk memperoleh imbal hasil dari kenaikan nilai modal, penghasilan investasi, atau keduanya; dan
- (c) mengukur dan mengevaluasi kinerja dari seluruh investasinya berdasarkan nilai wajar.

Entitas induk yang adalah entitas investasi mengukur investasi dalam entitas anak pada nilai wajar melalui laba rugi.

Kepentingan nonpengendali mencerminkan bagian atas laba rugi dan aset neto yang tidak diatribusikan kepada entitas induk dan disajikan secara terpisah dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian dan ekuitas pada laporan posisi keuangan konsolidasian, dipisahkan dari ekuitas yang dapat diatribusikan kepada entitas induk

Total penghasilan komprehensif lain diatribusikan kepada pemilik entitas induk dan kepentingan nonpengendali bahkan jika hal ini mengakibatkan kepentingan nonpengendali mempunyai saldo defisit.

Seluruh saldo akun dan transaksi yang material antar entitas yang dikonsolidasi telah dieliminasi.

Jika entitas induk kehilangan pengendalian pada entitas anak, maka entitas induk:

- a. menghentikan pengakuan aset (termasuk setiap goodwill) dan liabilitas entitas anak terdahulu dari laporan posisi keuangan konsilidasian.
- b. mengakui sisa investasi pada entitas anak terdahulu pada nilai wajarnya pada tanggal hilangnya pengendalian, dan selanjutnya mencatat sisa investasi tersebut dan setiap jumlah terutang oleh atau kepada entitas anak terdahulu. Nilai wajar tersebut dianggap sebagai nilai wajar pada saat pengakuan awal aset keuangan atau, jika sesuai, biaya perolehan pada saat pengakuan awal investasi pada entitas asosiasi atau ventura bersama.
- mengakui keuntungan atau kerugian terkait dengan hilangnya pengendalian yang dapat diatribusikan pada kepentingan pengendali terdahulu.

c. Kas dan Setara Kas

Kas dan setara kas terdiri dari saldo kas dan bank, serta deposito berjangka yang jatuh tempo dalam waktu tiga (3) bulan atau kurang sejak tanggal penempatan dan tidak digunakan sebagai jaminan atau dibatasi penggunaannya.

3. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

- its business purpose is to invest funds solely for returns from capital appreciation, investment income, or both; and
- (c) measures and evaluates the performance of its investments on a fair value basis.

A parent that is an investment entity measures its investments in particular subsidiaries at fair value through profit or loss.

Non-controlling interest represents a portion of the profit or loss and net assets not attributable to the parent and is presented separately in the consolidated statements of profit or loss and other comprehensive income, and within equity in the consolidated statements of financial position, separately from equity attributable to the parent.

Total other comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

All significant intercompany transactions and balances have been eliminated.

If a parent loses control of a subsidiary, the parent:

- a. derecognizes the assets (including goodwill) and liabilities of the former subsidiary from the consolidated statements of financial position.
- b. recognizes any investment retained in the former subsidiary at its fair value at the date when control is lost, and subsequently accounts for it and for any amounts owed by or to the former subsidiary. That fair value shall be regarded as the fair value on initial recognition of a financial asset or, if appropriate, the cost on initial recognition of an investment in an associate or joint venture.
- recognizes the gain or loss associated with the loss of control attributable to the former controlling interest.

c. Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand and in banks and time deposits with original maturities within three (3) months or less and not pledged as collateral or restricted in use.

3. KEBIJAKAN AKUNTANSI SIGNIFIKAN YANG DITERAPKAN (Lanjutan)

d. Aset Lancar Lainnya

Aset lancar lainnya terdiri dari kas di bank dan deposito berjangka sehubungan dengan restrukturisasi utang, jaminan atas fasilitas impor *Letter of Credit* dan deposito berjangka yang jatuh tempo lebih dari tiga (3) bulan tetapi kurang dari satu (1) tahun disajikan sebagai "Aset Lancar Lainnya".

e. Transaksi dengan Pihak-pihak Berelasi

Perusahaan dan Entitas Anak mengungkapkan transaksi dengan pihak-pihak berelasi.

Transaksi yang signifikan dengan pihak-pihak berelasi diungkapkan dalam catatan atas laporan keuangan konsolidasian.

f. Instrumen Keuangan

Instrumen keuangan adalah setiap kontrak yang memberikan kenaikan nilai aset keuangan dari satu entitas dan liabilitas keuangan atau instrumen ekuitas dari entitas lainnya.

1. Aset Keuangan

Pengakuan Awal

Klasifikasi dan pengukuran aset keuangan harus didasarkan pada bisnis model dan arus kas kontraktual, apakah semata dari pembayaran pokok dan bunga.

Aset keuangan diklasifikasikan dalam dua kategori sebagai berikut:

- Aset keuangan yang diukur dengan biaya diamortisasi.
- Aset keuangan yang diukur dengan nilai wajar melalui laba rugi (FVTPL) atau melalui penghasilan komprehensif lain (FVOCI).

Perusahaan dan Entitas Anak menentukan klasifikasi aset keuangan tersebut pada pengakuan awal dan tidak bisa melakukan perubahan setelah penerapan awal tersebut.

Semua aset keuangan pada awalnya diakui sebesar nilai wajarnya ditambah dengan biaya-biaya transaksi, kecuali aset keuangan dicatat pada nilai wajar melalui laporan laba rugi konsolidasian.

d. Other Current Assets

Other current assets consisting of cash in banks and time deposits in connection with the debt restructuring, margin deposits for Letter of Credit Import facility and time deposits with maturities more than three (3) months but less than one (1) year are presented as "Other Current Assets."

e. Transactions with Related Parties

The Company and Subsidiaries disclose transactions with related parties.

Significant transactions with related parties are disclosed in the notes to the consolidated financial statements.

f. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

1. Financial Assets

Initial Recognition

Classification and measurement of financial assets are based on business model and contractual cash flows whether from solely payment of principal and interest.

Financial assets are classified in the two categories as follows:

- Financial assets at amortised cost.
- Financial assets at fair value through profit or loss (FVTPL) or other comprehensive income (FVOCI).

The Company and Subsidiaries determines the classification of its financial assets at initial recognition and can not change the classification already made at initial adoption.

All financial assets are recognized initially at fair value plus transaction costs, except in the case of financial assets which are recorded at fair value through consolidated statements of profit or loss.

3. KEBIJAKAN AKUNTANSI SIGNIFIKAN YANG DITERAPKAN (Lanjutan)

Pembelian atau penjualan aset keuangan yang memerlukan penyerahan aset dalam kurun waktu yang ditetapkan oleh peraturan atau kebiasaan yang berlaku di pasar (perdagangan yang lazim) diakui pada tanggal perdagangan, yaitu pada tanggal Perusahaan dan Entitas Anak berkomitmen untuk membeli atau menjual aset tersebut.

Aset keuangan Perusahaan dan Entitas Anak meliputi kas dan setara kas, piutang usaha, piutang lain-lain, piutang pihak berelasi, aset lancar lainnya, dan aset keuangan tidak lancar lainnya. Aset keuangan diklasifikasikan sebagai aset lancar, jika jatuh tempo dalam waktu 12 bulan, jika tidak maka aset keuangan ini diklasifikasikan sebagai aset tidak lancar.

Pengukuran setelah pengakuan awal

Pengukuran aset keuangan setelah pengakuan awal tergantung pada klasifikasinya sebagai berikut:

 Aset keuangan yang diukur dengan biaya diamortisasi

Aset keuangan yang diukur dengan biaya diamortisasi selanjutnya menggunakan metode suku bunga efektif (*Effective Interest Rate*) ("EIR"), setelah dikurangi dengan penurunan nilai. Biaya perolehan yang diamortisasi dihitung dengan memperhitungkan diskonto atau premi atas biaya akuisisi atau biaya yang merupakan bagian integral dari EIR tersebut. Amortisasi EIR dicatat dalam laporan laba rugi konsolidasian. Kerugian yang timbul dari penurunan nilai juga diakui dalam laporan laba rugi konsolidasian.

Aset keuangan yang diukur pada nilai wajar melalui laba rugi

Aset keuangan yang diukur pada nilai wajar melalui laba rugi selanjutnya disajikan dalam laporan posisi keuangan konsolidasian sebesar nilai wajar, dengan perubahan nilai wajar yang diakui dalam laporan laba rugi konsolidasian.

3. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company and Subsidiaries commits to purchase or sell the assets.

The Company and Subsidiaries' financial assets include cash and cash equivalents, trade receivables, other receivables, due from related parties, other current assets and other non-current assets. Financial assets in this category are classified as current assets if expected to be settled within 12 months, otherwise they are classified as non-current.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortized cost

Financial assets at amortized cost are subsequently measured using Effective Interest Rate ("EIR") method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition fees or costs that are an integral part of the EIR. The EIR amortization is included in the consolidated statements of profit or loss. The losses arising from impairment are also recognized in the consolidated statements of profit or loss.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are subsequently carried in the consolidated statements of financial position at fair value, with changes in fair value recognized in the consolidated statements of profit or loss.

3. KEBIJAKAN AKUNTANSI SIGNIFIKAN YANG DITERAPKAN (Lanjutan)

2. Liabilitas Keuangan

Pengakuan Awal

Liabilitas keuangan dalam lingkup PSAK 71 diklasifikasikan sebagai berikut:

- Liabilitas keuangan yang diukur dengan biaya diamortisasi.
- Liabilitas keuangan yang diukur dengan nilai wajar melalui laba rugi (FVTPL) atau melalui penghasilan komprehensif lain (FVOCI).

Perusahaan dan Entitas Anak menentukan klasifikasi liabilitas keuangan mereka pada saat pengakuan awal.

Seluruh liabilitas keuangan diakui pada awalnya sebesar nilai wajar dan, dalam hal pinjaman dan utang, termasuk biaya transaksi yang dapat diatribusikan secara langsung.

Liabilitas keuangan Perusahaan dan Entitas Anak meliputi utang usaha, utang lain-lain, beban masih harus dibayar, pinjaman dan utang obligasi, utang pihak berelasi, uang muka pelanggan, dan liabilitas keuangan jangka pendek, dan jangka panjang lain-lain. Liabilitas keuangan diklasifikasikan sebagai liabilitas jangka panjang jika jatuh tempo melebihi 12 bulan dan sebagai liabilitas jangka pendek jika jatuh tempo yang tersisa kurang dari 12 bulan.

Pengukuran setelah pengakuan awal

Pengukuran liabilitas keuangan tergantung pada klasifikasinya sebagai berikut:

Liabilitas keuangan yang diukur dengan biaya diamortisasi.

Liabilitas keuangan yang diukur pada biaya amortisasi (misalnya pinjaman dan utang yang dikenakan bunga) selanjutnya diukur dengan menggunakan metode EIR. Amortisasi EIR termasuk di dalam biaya keuangan dalam laporan laba rugi konsolidasian.

Keuntungan atau kerugian diakui dalam laporan laba rugi konsolidasian pada saat liabilitas tersebut dihentikan pengakuannya serta melalui proses amortisasi EIR.

2. Financial Liabilities

Initial Recognition

Financial liabilities within the scope of PSAK 71 are classified as follows:

- Financial liabilities at amortised cost.
- Financial liabilities at fair value through profit or loss (FVTPL) or other comprehensive income (FVOCI).

The Company and Subsidiaries determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, inclusive of directly attributable transaction costs.

The Company and Subsidiaries' financial liabilities include trade payables, other payables, accrued expense, loans and bond payable, due to related parties, deposits from customer, and other current and non-current financial liabilities. Financial liabilities are classified as non-current liabilities when the remaining maturity is more than 12 months, and as current liabilities when the remaining maturity is less than 12 months.

Subsequent measurement

The measurement of financial liabilities depends on their classification as follows:

Financial liabilities at amortised cost.

Financial liabilities at amortized cost (e.g interest-bearing loans and borrwings) are subsequently measured using the EIR method. The EIR amortization is included in finance costs in the consolidated statements of profit or loss.

Gains or losses are recognized in the consolidated statements of profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

3. KEBIJAKAN AKUNTANSI SIGNIFIKAN YANG DITERAPKAN (Lanjutan)

 Liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi.

Liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi termasuk liabilitas keuangan untuk diperdagangkan dan liabilitas keuangan yang ditetapkan pada saat pengakuan awal untuk diukur pada nilai wajar melalui laporan laba rugi konsolidasian.

Keuntungan atau kerugian atas liabilitas yang dimiliki untuk diperdagangkan diakui dalam laporan laba rugi konsolidasian.

3. Instrumen Keuangan Salinghapus

dan liabilitas keuangan keuangan salinghapus dan nilai netonya disajikan dalam laporan posisi keuangan konsolidasian jika, dan hanya jika, entitas saat ini memiliki hak yang dapat dipaksakan secara hukum untuk melakukan saling hapus atas jumlah yang telah diakui dan berniat untuk menyelesaikan secara neto, atau untuk merealisasikan aset dan menyelesaikan kewajibannya secara simultan. Hak yang berkekuatan hukum tersebut tidak harus bergantung pada kejadian masa depan dan harus dapat dilaksanakan dalam kegiatan usaha normal dam dalam hal gagal bayar, pailit atau kebangkrutan dari Perusahaan dan Entitas Anak atau pihak lawan.

4. Penurunan nilai dari asset keuangan

Pada setiap periode pelaporan, Perusahaan dan Entitas Anak menilai apakah risiko kredit dari instrumen keuangan telah meningkat secara signifikan sejak pengakuan awal. Ketika melakukan penilaian, Perusahaan dan Entitas Anak menggunakan perubahan atas risiko gagal bayar yang terjadi sepanjang perkiraan usia instrumen keuangan daripada perubahan atas jumlah kerugian kredit ekspektasian. Dalam melakukan penilaian, Perusahaan dan Entitas Anak membandingkan antara risiko gagal bayar vang terjadi atas instrumen keuangan pada saat periode pelaporan dengan risiko gagal bayar yang terjadi atas instrumen keuangan pada saat pengakuan awal dan mempertimbangkan kewajaran serta ketersediaan informasi, yang tersedia tanpa biaya atau usaha pada saat tanggal pelaporan terkait dengan kejadian masa lalu, kondisi terkini dan perkiraan atas kondisi ekonomi di masa depan, yang mengindikasikan kenaikan risiko kredit sejak pengakuan awal.

3. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

 Financial liabilities at fair value through profit or loss.

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition at fair value through the consolidated statements of profit or loss.

Gains or losses on liabilities held for trading are recognized in the consolidated statements of profit or loss.

3. Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously. The legally enforceable right must not be contingent in future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company and Subsidiaries or the counterparty.

4. Impairment of financial assets

At each reporting date, the Company and Subsidiaries assess whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Company and Subsidiaries use the change in the risk of a default occuring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company and Subsidiaries compare the risk of a defaulf occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and consider reasonable and supportable information, that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions, that is indicative of significant increases in credit risk since initial recognition.

3. KEBIJAKAN AKUNTANSI SIGNIFIKAN YANG DITERAPKAN (Lanjutan)

Perusahaan dan Entitas Anak menerapkan metode yang disederhanakan untuk mengukur kerugian kredit ekspektasian tersebut terhadap piutang usaha.

5. Penghentian pengakuan aset dan liabilitas keuangan

Aset keuangan

Aset keuangan (atau mana yang lebih tepat, bagian dari aset keuangan atau bagian dari kelompok asset keuangan serupa) dihentikan pengakuannya pada saat: (1) hak untuk menerima arus kas yang berasal dari aset tersebut telah berakhir; atau (2) Perusahaan dan Entitas Anak telah mengalihkan hak mereka untuk menerima arus kas yang berasal dari aset atau berkewajiban untuk membayar arus kas yang diterima secara penuh tanpa penundaan material kepada pihak ketiga dalam perjanjian "pass-through", dan baik (a) Perusahaan dan Entitas Anak telah secara substantial mengalihkan seluruh risiko dan manfaat dari aset, atau (b) Perusahaan dan Entitas Anak secara substantial tidak mengalihkan atau tidak memiliki seluruh risiko dan manfaat suatu aset, namun telah mengalihkan kendali atas aset tersebut.

Liabilitas keuangan

Liabilitas keuangan dihentikan pengakuannya pada saat liabilitas tersebut berakhir atau dibatalkan atau kadaluarsa.

Dalam hal suatu liabilitas keuangan yang ada digantikan oleh liabilitas keuangan lain dari pemberi pinjaman yang sama dengan persyaratan yang berbeda secara substantial, atau modifikasi secara substantial atas persyaratan dari suatu liabilitas yang ada, pertukaran atau modifikasi tersebut diperlakukan sebagai penghentian pengakuan liabilitas awal dan pengakuan liabilitas baru, dan selisih antara nilai tercatat masingmasing liabilitas diakui dalam laporan laba rugi konsolidasian.

3. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

The Company and Subsidiaries applied a simplified approach to measure such expected credit loss for trade receivables.

3. Derecognition of financial assets and liabilities

Financial assets

A financial asset (or where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when: (1) the rights to receive cash flows from the asset have expired; or (2) the Company and Subsidiaries has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Company and Subsidiaries has transferres substantially all the risks and rewards of the asset, or (b) the Company and Subsidiaries has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the consolidated statements of profit or loss.

3. KEBIJAKAN AKUNTANSI SIGNIFIKAN YANG DITERAPKAN (Lanjutan)

g. Persediaan

Persediaan dinyatakan sebesar nilai yang lebih rendah antara biaya perolehan atau nilai realisasi neto (the lower of cost or net realizable value). Biaya perolehan ditentukan dengan metode rata-rata tertimbang (weighted-average method). Biaya barang jadi yang diproduksi dan barang dalam proses termasuk alokasi sistematis overhead produksi. Nilai realisasi neto adalah estimasi harga jual dalam kegiatan usaha biasa dikurangi estimasi biaya penyelesaian dan estimasi biaya yang diperlukan untuk membuat penjualan. Penyisihan persediaan usang ditentukan berdasarkan hasil penelaahan atas keadaan persediaan pada tiap akhir periode pelaporan.

h. Beban Dibayar Dimuka

Beban dibayar dimuka diamortisasi selama masa manfaat masing-masing biaya.

i. Investasi pada Entitas Asosiasi

Entitas asosiasi adalah entitas yang mana Perusahaan dan Entitas Anak memiliki pengaruh signifikan dan bukan merupakan entitas anak (Catatan 3b) maupun bagian partisipasi dalam ventura bersama. Pemilikan, secara langsung maupun tidak langsung, 20% atau lebih hak suara investee dianggap pemilikan pengaruh signifikan, kecuali dapat dibuktikan dengan jelas hal yang sebaliknya.

Investasi pada entitas asosiasi dicatat dengan menggunakan metode ekuitas, dimana pada awalnya diakui sebesar biaya perolehan. Selanjutnya, bagian Perusahaan dan Entitas Anak atas laba rugi entitas asosiasi, setelah penyesuaian yang diperlukan terhadap dampak penyeragaman kebijakan akuntansi dan eliminasi laba atau rugi yang dihasilkan dari transaksi antara Perusahaan dan Entitas Anak dan entitas asosiasi, akan menambah atau mengurangi jumlah tercatat investasi tersebut dan diakui sebagai laba rugi Perusahaan dan Entitas Anak. Penerimaan distribusi dari entitas asosiasi mengurangi jumlah tercatat investasi. Penyesuaian terhadap jumlah tercatat tersebut juga diperlukan jika terdapat perubahan dalam proporsi bagian Perusahaan dan Entitas Anak atas entitas asosiasi yang timbul dari penghasilan komprehensif lain dari entitas asosiasi. Bagian Perusahaan dan Entitas Anak atas perubahan tersebut diakui dalam penghasilan komprehensif lain dari Perusahaan dan Entitas Anak.

g. Inventories

Inventories are valued at the lower of cost or net realizable value. Cost is determined using the weighted-average method. Cost of finished goods produced and work in process includes a systematic allocation of production overheads. Net realizable value is the estimated selling price in the ordinary course of business less applicable estimated costs of completion and estimated costs necessary to make the sale. Allowance for inventory obsolescence is provided based on a review of the condition of inventories at the end of each reporting period.

h. Prepaid Expenses

Prepaid expenses are amortized over the periods benefited.

i. Investment in an Associate

An associate is an entity, over which the Company and Subsidiaries have significant influence but is neither a subsidiary (Note 3b) nor an interest in a joint venture. Direct or indirect ownership of 20% or more of the voting power of an investee is presumed to be an ownership of significant influence, unless it can be clearly demonstrated that this is not the case.

Investment in an associate is accounted for using the equity method, under which it is initially recognized at cost. Subsequently, the Company and Subsidiaries' share of the profit or loss of the associate, after any adjustments necessary to give effect to uniform accounting policies and elimination of profits or losses resulting from transactions between the Company and Subsidiaries and the associate, increases or decreases their carrying amount and is recognized in the Company and Subsidiaries' profit or loss. Distributions received from the associate reduce the carrying amount of the investment. Adjustments to the carrying amount may also be necessary for changes in the Company and Subsidiaries' proportionate interest in the associate arising from changes in the associate's other comprehensive income. The Company and Subsidiaries' share of these changes is recognized in other comprehensive income of the Company and Subsidiaries.

3. KEBIJAKAN AKUNTANSI SIGNIFIKAN YANG DITERAPKAN (Lanjutan)

Goodwill yang terkait dengan akuisisi entitas asosiasi termasuk dalam jumlah tercatat investasi. Jika terdapat goodwill negatif, maka jumlah tersebut diakui di dalam laba rugi. Goodwill tidak diamortisasi dan dilakukan uji penurunan nilai setiap tahun.

Apabila nilai tercatat investasi telah mencapai nilai nol, kerugian selanjutnya akan diakui hanya jika Perusahaan dan Entitas Anak mempunyai komitmen untuk menyediakan bantuan pendanaan atau menjamin kewajiban entitas asosiasi yang bersangkutan.

Jika investasi pada entitas asosiasi menjadi investasi pada ventura bersama atau sebaliknya, maka entitas melanjutkan penerapan metode ekuitas dan tidak mengukur kembali kepentingan yang tersisa.

Perubahan nilai investasi yang disebabkan oleh terjadinya perubahan nilai ekuitas di entitas asosiasi yang timbul dari transaksi modal di entitas asosiasi dengan pihak ketiga diakui sebagai penghasilan komprehensif lain dan akan diakui sebagai penghasilan atau beban pada saat pelepasan investasi yang bersangkutan.

j. Aset Tetap

Perusahaan dan Entitas Anak telah memilih untuk menggunakan model biaya sebagai kebijakan akuntansi pengukuran aset tetapnya, kecuali hak atas tanah.

Aset tetap, selain hak atas tanah, dinyatakan sebesar harga perolehan dikurangi akumulasi penyusutan. Penyusutan dihitung dengan metode garis lurus selama masa manfaat aset. Taksiran masa manfaat aset adalah sebagai berikut:

3. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

Goodwill on acquisition of associate is included in the carrying amount of the investment. In the case of negative goodwill, such amount is recognized in profit or loss. Goodwill is no longer amortized but annually assessed for impairment.

Once an investment's carrying value has been reduced to zero, further losses are taken up only if the Company and Subsidiaries have committed to provide financial support to, or have guaranteed the obligations of the associate.

If an investment in an associate becomes an investment in a joint venture or vice versa, the entity continues to apply the equity method and does not remeasure the retained interest.

Changes in value of the investments due to changes of equity in associate arising from capital transactions of such associate with other parties are recognized as other comprehensive income and recognized as income or expenses in the period in which disposal of the investments occurs.

i. Fixed Assets

The Company and Subsidiaries have chosen the cost model as the accounting policy for their fixed assets measurement, except land rights.

Fixed assets, other than land rights, are stated at cost less accumulated depreciation. Depreciation is calculated on a straight-line basis over the useful lives of the assets. Estimated useful lives of the assets are as follows:

	Tahun/ <i>Years</i>	
Prasarana	12 - 20	Land improvements
Bangunan	11 - 20	Buildings
Mesin	25	Machinery
Peralatan pengangkutan, perabot,		Transportation equipment, furniture,
peralatan kantor dan peralatan lain-lain	2 - 5	fixtures and other equipment

3. KEBIJAKAN AKUNTANSI SIGNIFIKAN YANG DITERAPKAN (Lanjutan)

Masa manfaat aset tetap dan metode penyusutan ditelaah dan disesuaikan, jika sesuai keadaan, pada setiap akhir periode pelaporan.

ISAK No. 25, "Hak Atas Tanah", menetapkan bahwa biaya pengurusan legal hak atas tanah dalam bentuk Hak Guna Usaha ("HGU"), Hak Guna Bangunan ("HGB") dan Hak Pakai ("HP") ketika tanah diperoleh pertama kali diakui sebagai bagian dari biaya perolehan tanah pada akun "Aset Tetap" dan tidak diamortisasi. Sementara biaya pengurusan atas perpanjangan atau pembaruan legal hak atas tanah dalam bentuk HGU, HGB dan HP diakui sebagai bagian dari akun "Beban Ditangguhkan" pada laporan posisi keuangan konsolidasian dan diamortisasi sepanjang mana yang lebih pendek antara umur hukum dan umur ekonomis tanah.

Aset dalam pengerjaan dinyatakan sebesar biaya perolehan dan disajikan sebagai bagian dari "Aset Tetap" dalam laporan posisi keuangan konsolidasian. Akumulasi biaya perolehan akan dipindahkan ke masing-masing akun aset tetap yang bersangkutan pada saat aset tersebut selesai dikerjakan dan siap digunakan.

Beban perbaikan dan pemeliharaan dibebankan pada laba rugi pada saat terjadinya; biaya penggantian atau inspeksi yang signifikan dikapitalisasi pada saat terjadinya jika besar kemungkinan manfaat ekonomis di masa depan berkenaan dengan aset tersebut akan mengalir ke Perusahaan dan Entitas Anak, dan biaya perolehan aset dapat diukur secara andal. Aset tetap dihentikan pengakuannya pada saat dilepaskan atau ketika tidak ada manfaat ekonomis masa depan yang diharapkan dari penggunaan atau pelepasannya. Keuntungan atau kerugian yang timbul dari penghentian pengakuan aset dimasukkan dalam laba rugi pada periode aset tersebut dihentikan pengakuannya.

k. Sewa

Sewa yang mengalihkan secara substansial semua risiko dan manfaat yang terkait dengan kepemilikan aset kepada *lessee* diklasifikasikan sebagai sewa pembiayaan. Pada awal masa sewa, sewa pembiayaan dikapitalisasi sebesar nilai wajar aset sewaan atau sebesar nilai kini dari pembayaran sewa minimum, jika nilai kini lebih rendah dari nilai wajar.

3. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

The fixed assets' useful lives and methods of depreciation are reviewed and adjusted, if appropriate, at each end of reporting period.

ISAK No. 25, "Land Rights," prescribes that the legal cost of land right in the form of Business Usage Rights ("Hak Guna Usaha" or "HGU"), Building Usage Rights (Hak Guna Bangunan or "HGB") and Usage Rights ("Hak Pakai" or "HP") when land is initially acquired is recognized as part of the cost of the land under the "Fixed Assets" account and not amortized. Meanwhile the extension or the legal renewal costs of land rights in the form of HGU, HGB and HP are recognized as part of "Deferred Charges" account in the consolidated statements of financial position and are amortized over the shorter of the rights' legal life and land's economic life.

Assets under construction are stated at cost and presented as part of "Fixed Assets" in the consolidated statements of financial position. The accumulated costs will be reclassified to the appropriate fixed assets account when construction is complete and the assets are ready for their intended use.

The cost of repairs and maintenance is charged to profit or loss as incurred; replacement or major inspection costs are capitalized when incurred if it is probable that future economic benefits associated with the item will flow to the Company and Subsidiaries, and the cost of the item can be reliably measured. An item of fixed assets is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is included in profit or loss in the period in which the asset is derecognized.

k. Leases

Leases that transfer substantially all the risks and benefits incidental to ownership of the leased item to the lessee are classified as finance leases. Finance leases are capitalized at the inception of the lease at the fair value of the leased assets or at the present value of the minimum lease payments if the present value is lower than the fair value.

3. KEBIJAKAN AKUNTANSI SIGNIFIKAN YANG DITERAPKAN (Lanjutan)

Pembayaran sewa minimum dipisahkan antara bagian yang merupakan beban keuangan dan bagian yang merupakan pelunasan liabilitas sehingga menghasilkan suatu tingkat bunga periodik yang konstan atas saldo liabilitas. Beban keuangan dibebankan pada laba rugi. Aset sewaan yang dimiliki oleh *lessee* dengan dasar sewa pembiayaan dicatat pada akun aset tetap dan disusutkan sepanjang masa manfaat dari aset sewaan tersebut atau periode masa sewa, mana yang lebih pendek, jika tidak ada kepastian yang memadai bahwa *lessee* akan mendapatkan hak kepemilikan pada akhir masa sewa.

Sewa yang tidak mengalihkan secara substansial seluruh risiko dan manfaat yang terkait dengan kepemilikan aset diklasifikasikan sebagai sewa operasi.

I. Penurunan Nilai Aset Nonkeuangan

Pada setiap akhir periode pelaporan, Perusahaan dan Entitas Anak menilai apakah terdapat indikasi aset mengalami penurunan nilai. Jika terdapat indikasi tersebut, maka Perusahaan dan Entitas Anak mengestimasi jumlah terpulihkan aset tersebut. Jumlah terpulihkan suatu aset atau unit penghasil kas adalah jumlah yang lebih tinggi antara nilai wajar dikurangi biaya pelepasan dan nilai pakainya. Jika jumlah terpulihkan suatu aset lebih kecil dari jumlah tercatatnya, jumlah tercatat aset harus diturunkan menjadi sebesar jumlah terpulihkan. Kerugian penurunan nilai diakui segera dalam laba rugi.

Pembalikan rugi penurunan nilai untuk aset nonkeuangan selain *goodwill*, diakui jika, dan hanya jika, terdapat perubahan estimasi yang digunakan dalam menentukan jumlah terpulihkan aset sejak pengujian penurunan nilai terakhir kali. Pembalikan rugi penurunan nilai tersebut diakui segera dalam laba rugi, kecuali aset yang disajikan pada jumlah revaluasian sesuai dengan PSAK lain. Rugi penurunan nilai yang diakui atas *goodwill* tidak dibalik laqi.

3. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recorded in profit or loss. Leased assets held by the lessee under finance leases are included in fixed assets and depreciated over the estimated useful life of the assets or the lease term, whichever is shorter, if there is no reasonable certainty that lessee will obtain ownership by the end of the lease term.

Leases that do not transfer substantially all the risks and benefits incidental to ownership of the leased item are classified as operating leases.

I. Impairment of Non-financial Assets

The Company and Subsidiaries evaluate at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the Company and Subsidiaries estimate the recoverable amount of the asset. The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs of disposal and its value in use. Whenever the carrying amount of an asset exceeds its recoverable amount, the asset is considered to be impaired and is written down to its recoverable amount. The impairment loss is recognized immediately in profit or loss.

Reversal on impairment loss for non-financial assets other than goodwill is recognized if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment test is carried out. Reversal on impairment losses is immediately recognized in profit or loss, except for assets presented using the revaluation model in accordance with another PSAK. Impairment losses relating to goodwill are not reversed.

3. KEBIJAKAN AKUNTANSI SIGNIFIKAN YANG DITERAPKAN (Lanjutan)

m. Biaya Pinjaman

Biaya pinjaman, baik yang secara langsung maupun tidak langsung digunakan untuk mendanai suatu proses pembangunan aset tertentu yang memenuhi syarat ("aset kualifikasian"), dikapitalisasi hingga saat proses pembangunannya selesai. Untuk pinjaman yang secara khusus digunakan untuk perolehan aset kualifikasian, jumlah yang dikapitalisasi adalah sebesar biaya pinjaman yang terjadi selama periode berjalan, dikurangi dengan penghasilan investasi jangka pendek dari pinjaman tersebut.

Untuk pinjaman yang tidak secara khusus digunakan untuk perolehan aset kualifikasian, jumlah biaya pinjaman yang dikapitalisasi ditentukan dengan mengalikan tingkat kapitalisasi tertentu terhadap pengeluaran untuk aset kualifikasian tersebut.

n. Pengakuan Pendapatan dan Beban

Pendapatan diakui jika besar kemungkinan manfaat ekonomi akan diperoleh oleh Perusahaan dan Entitas Anak dan jumlahnya dapat diukur secara handal. Pendapatan diukur pada nilai wajar imbalan yang diterima, tidak termasuk diskon, rabat dan pajak penjualan (PPN).

Penjualan lokal diakui pada saat hak kepemilikan beralih kepada pelanggan. Penjualan ekspor diakui pada saat barang dimuat di atas kapal pelabuhan pengirim (f.o.b. shipping point). Penjualan disajikan neto dari pajak pertambahan nilai, retur penjualan dan potongan harga.

Beban diakui pada saat terjadinya atau diamortisasi selama masa manfaatnya (accrual basis).

o. Transaksi dan Saldo dalam Mata Uang Asing

Efektif tanggal 1 Januari 2019, Perusahaan dan Entitas Anak menerapkan ISAK No. 33, "Transaksi Valuta Asing dan Imbalan di Muka" yang mempertimbangkan bagaimana menentukan tanggal transaksi ketika menerapkan standar PSAK 10 "Pengaruh Perubahan Kurs Valuta Asing". Interpretasi ini berlaku ketika entitas membayar atau menerima imbalan terlebih dahulu untuk kontrak yang dalam mata uang asing.

m. Borrowing Costs

Borrowing costs, either directly or indirectly used in financing the construction of a qualifying asset, are capitalized up to the date construction is complete. For borrowings that are specific to the acquisition of a qualifying asset, the amount to be capitalized is determined as the actual borrowing costs incurred during the period, less any income earned from the temporary investment of such borrowings.

For borrowings that are not specific to the acquisition of a qualifying asset, the amount to be capitalized is determined by applying a capitalization rate to the amount expensed on the qualifying asset.

n. Revenue and Expense Recognition

Revenue is recognized to the extent when it is probable that the economic benefits will flow to the Company and Subsidiaries and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates and sales taxes (VAT).

Local sales are recognized when title passes to the customer. Export sales are recognized upon loading of the goods for shipment to customers (f.o.b. shipping point). Sales are presented net of value-added tax, sales returns and price discounts.

Expenses are recognized when incurred or amortized according to their beneficial periods (accrual basis).

o. Foreign Currency Transactions and Balances

Effective January 1, 2019, the Company and Subsidiaries applied ISAK No. 33, "Foreign Currency Transactions and Advance Consideration," which considers how to determine the date of the transaction when applying PSAK 10 "The Effects of Changes in Foreign Exchange Rates". The interpretation applies where an entity either pays or receives consideration in advance for foreign currency denominated contracts.

The adoption of this interpretation had no impact on the Company and Subsidiaries' consolidated financial statements.

Transaksi dalam mata uang selain USD dijabarkan ke dalam USD berdasarkan kurs yang berlaku pada tanggal transaksi. Pada akhir periode pelaporan, seluruh aset dan liabilitas moneter dalam mata uang selain USD dijabarkan ke dalam USD dengan menggunakan kurs tengah yang ditetapkan oleh Bank Indonesia pada tanggal tersebut. Keuntungan atau kerugian yang timbul dari penyesuaian kurs maupun penyelesaian aset dan liabilitas moneter dalam mata uang asing tersebut dikreditkan atau dibebankan sebagai laba rugi periode berjalan.

Kurs penutup yang digunakan pada tanggal 30 Juni 2020 dan 31 Desember 2019 adalah sebagai berikut (dalam angka penuh):

	30 Jun 2020 / <i>Jun 30, 2020</i>	31 Des 2019 / Dec 31, 2019	
Dolar AS/Rupiah Indonesia	14.302,00	13.901,00	US Dollar/Indonesian Rupiah

Dolar AS/Dolar Singapura	1,39	1,35	US Dollar/Singaporean Dollar
Dolar AS/Dolar Australia	1,45	1,43	US Dollar/Australian Dollar
Dolar AS/Euro Eropa	0.89	0.89	US Dollar/European Euro

p. Imbalan Kerja

Efektif tanggal 1 Januari 2019, Perusahaan dan Entitas Anak menerapkan Amandemen PSAK No. 24, "Imbalan Kerja", yang mensyaratkan entitas untuk menggunakan asumsi yang diperbarui untuk menentukan biaya jasa kini dan bunga neto untuk sisa periode setelah amandemen, kurtailmen atau penyelesaian rencana; dan untuk mengakui laba rugi sebagai bagian dari biaya jasa masa lalu, atau keuntungan atau kerugian dari penyelesaian, setiap pengurangan surplus, bahkan jika surplus itu sebelumnya tidak diakui karena dampak dari batas atas aset. Penerapan amandemen ini tidak berdampak terhadap laporan keuangan konsolidasian Perusahaan dan Entitas Anak.

Imbalan Kerja Jangka Pendek

Imbalan kerja jangka pendek merupakan kompensasi yang diberikan oleh Perusahaan dan Entitas Anak seperti gaji, tunjangan, bonus dan pembayaran manfaat pensiun, yang diakui pada saat terutang kepada karyawan.

Transactions in currencies other than USD are translated into USD at the rate prevailing at the transaction date. At the end of reporting period, all monetary assets and liabilities in currencies other than the USD are translated into USD at the middle exchange rates quoted by Bank Indonesia on that date. Gains or losses resulting from such adjustment or settlement of each monetary asset and liability denominated in foreign currencies are credited or charged as current period profit or loss.

The closing exchange rates used as of June 30, 2020 and December 31, 2019 are as follows (in full amounts):

p. Employee Benefits

Effective January 1, 2019, the Company and Subsidiaries applied Amendment to PSAK No. 24, "Employee Benefits," which requires an entity to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and to recognize in profit or loss as part of past service cost, or a gain or loss on settlement, and reduction in a surplus, even if that surplus was not previously recognized because of the impact of the asset ceiling. The adoption of this amendment had no impact on the Company and Subsidiaries' consolidated financial statements.

Short-term Employee Benefits

Short-term employee benefits represent compensation provided by the Company and Subsidiaries such as salaries, allowance, bonus and pension contribution paid, which are recognized when they accrue to the employees.

Imbalan Pascakerja

Perusahaan dan Entitas Anak menentukan liabilitas imbalan pascakerja sesuai dengan Undang-undang Ketenagakerjaan No. 13/2003 tanggal 25 Maret 2003 ("Undang-Undang"). PSAK No. 24 mensyaratkan entitas menggunakan metode "Projected Unit Credit" untuk menentukan nilai kini kewajiban imbalan pasti, biaya jasa kini terkait, dan biaya jasa lalu.

Ketika entitas memiliki surplus dalam program imbalan pasti, maka entitas mengukur aset imbalan pasti pada jumlah yang lebih rendah antara surplus program imbalan pasti dan batas atas aset yang ditentukan dengan menggunakan tingkat diskonto.

Entitas mengakui komponen biaya imbalan pasti, kecuali SAK mensyaratkan atau mengizinkan biaya tersebut sebagai biaya perolehan aset, sebagai berikut:

- (a) biaya jasa dalam laba rugi;
- (b) bunga neto atas liabilitas (aset) imbalan pasti neto dalam laba rugi; dan
- (c) pengukuran kembali liabilitas (aset) imbalan pasti neto dalam penghasilan komprehensif lain

Pengukuran kembali atas liabilitas (aset) imbalan pasti neto yang diakui dalam penghasilan komprehensif lain tidak direklasifikasi ke laba rugi pada periode berikutnya. Akan tetapi, entitas dapat mengalihkan jumlah yang diakui sebagai penghasilan komprehensif lain tersebut pada pos lain dalam ekuitas.

Pengukuran kembali liabilitas (aset) imbalan pasti neto terdiri atas:

- (a) keuntungan dan kerugian aktuarial;
- (b) imbal hasil atas aset program, tidak termasuk jumlah yang dimasukkan dalam bunga neto atas liabilitas (aset) imbalan pasti neto; dan
- (c) setiap perubahan dampak batas atas aset, tidak termasuk jumlah yang dimasukkan dalam bunga neto atas liabilitas (aset) imbalan pasti neto.

Entitas mengakui biaya jasa lalu sebagai beban pada tanggal yang lebih awal antara ketika amandemen atau kurtailmen program terjadi dan ketika entitas mengakui biaya restrukturisasi terkait atau pesangon.

Post-employment Benefits

The Company and Subsidiaries determine their postemployment benefits liability under Labor Law No. 13/2003 dated March 25, 2003 (the "Law"). PSAK No. 24 requires the present value of the defined benefit obligation, the related current service cost, and past service cost to be determined using the "Projected Unit Credit" method.

When an entity has a surplus in a defined benefit plan, it measures the defined benefit asset at the lower amount between the surplus of defined benefit plan and the upper limit on assets determined using a discount rate.

An entity recognizes the components of defined benefit cost, except SAK requires or permits such costs as the acquisition cost of the asset, as follows:

- (a) service cost in profit or loss;
- (b) net interest on net liability (asset) of defined benefit in profit or loss; and
- (c) remeasurement on net liability (asset) of defined benefit in other comprehensive income.

Remeasurement on net liability (asset) of defined benefit recognized in other comprehensive income is not reclassified to profit or loss in subsequent periods. However, the entity may transfer the amounts recognized as other comprehensive income in another account in equity.

Remeasurement of net liability (asset) of defined benefit consists of:

- (a) actuarial gains and losses;
- (b) return on plan assets, excluding amounts included in net interest on the net defined benefit liability (asset); and
- (c) any change in the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability (asset).

The entity recognizes past service cost as an expense at the earlier of when the amendments or curtailment of program occurs and when the entity recognizes related restructuring costs or severances.

3. KEBIJAKAN AKUNTANSI SIGNIFIKAN YANG DITERAPKAN (Lanjutan)

Perusahaan dan Entitas Anak mengakui keuntungan atau kerugian atas penyelesaian program imbalan pasti pada saat penyelesaian terjadi. Kurtailmen terjadi ketika entitas mengurangi secara signifikan jumlah pekerja yang ditanggung oleh program, atau mengubah ketentuan program imbalan pasti sehingga unsur yang signifikan dari jasa masa depan karyawan saat ini tidak lagi memenuhi syarat atas imbalan, atau akan memenuhi syarat hanya untuk imbalan yang dikurangi.

Kurtailmen dapat terjadi karena suatu peristiwa yang berdiri sendiri, seperti penutupan pabrik, penghentian operasi, atau terminasi atau penghentian program. Sebelum menentukan biaya jasa lalu, atau keuntungan dan kerugian atas penyelesaian, Perusahaan dan Entitas Anak mengukur kembali liabilitas (aset) imbalan pasti neto menggunakan nilai wajar kini dari aset program dan asumsi aktuarial kini (termasuk suku bunga pasar dan harga pasar kini yang lain) yang mencerminkan imbalan yang ditawarkan dalam program sebelum amandemen, kurtailmen, atau penyelesaian program.

q. Perpajakan

1. Pajak Penghasilan

Efektif tanggal 1 Januari 2019, Perusahaan dan Entitas Anak menerapkan PSAK No. 46 (Penyesuaian 2018), "Pajak Penghasilan", yang mengklarifikasi bahwa konsekuensi pajak penghasilan dari dividen pada instrumen keuangan yang diklasifikasikan sebagai ekuitas harus diakui sesuai dengan transaksi atau peristiwa masa lalu yang menghasilkan laba yang dapat dibagikan diakui. Persyaratan ini berlaku untuk semua konsekuensi pajak penghasilan dari dividen.

Perusahaan dan Entitas Anak juga menerapkan ISAK No. 34 yang menjelaskan bagaimana persyaratan pengakuan dan pengukuran PSAK 46 'Pajak Penghasilan', diterapkan apabila terdapat ketidakpastian perlakuan pajak penghasilan.

Penerapan penyesuaian dan interpretasi ini tidak berdampak terhadap laporan keuangan konsolidasian Perusahaan dan Entitas Anak.

Beban pajak penghasilan kini ditetapkan berdasarkan taksiran laba kena pajak periode berjalan.

3. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

The Company and Subsidiaries recognize gains or losses on the settlement of a defined benefit plan when such occur. A curtailment occurs when an entity make a material reduction in the number of employees covered by a plan, or amends the terms of a defined benefit plan so that a significant element of future service by current employees will no longer qualify for benefits, or will qualify only for reduced benefits.

A curtailment may arise from an isolated event, such as the closing of a plant, discontinuance of an operation or termination or suspension of a plan. Before determining the past service cost, or gains and losses on the settlement, the Company and Subsidiaries shall remeasure the net liability (asset) of defined benefit using current fair value of plan assets and current actuarial assumptions (including current market interest rates and other current market prices) that reflects the rewards offered in the program prior to the amendment, curtailment or settlement program.

q. Taxation

1. Income Taxes

Effective January 1, 2019, the Company and Subsidiaries applied PSAK No. 46 (2018 Improvement), "Income Taxes," which clarifies that the income tax consequences of dividends on financial instruments classified as equity should be recognized according to where the past transactions or events that generated distributable profits are recognized. This requirement applies to all income tax consequences of dividends.

The Company and Subsidiaries also applied ISAK No. 34 which clarifies how the recognition and measurement requirements of PSAK 46 'Income Taxes', are applied where there is uncertainty over income tax treatments.

The adoption of these improvement and interpretation had no impact on the Company and Subsidiaries' consolidated financial statements.

Current income tax expense is provided based on the estimated taxable profit for the period.

3. KEBIJAKAN AKUNTANSI SIGNIFIKAN YANG DITERAPKAN (Lanjutan)

Pajak penghasilan dalam laba rugi periode berjalan terdiri dari pajak kini dan tangguhan. Pajak penghasilan diakui dalam laba rugi, kecuali untuk transaksi yang berhubungan dengan transaksi yang diakui langsung dalam ekuitas atau penghasilan komprehensif lain, dalam hal ini diakui dalam ekuitas atau penghasilan komprehensif lain.

Aset pajak kini dan liabilitas pajak kini dilakukan saling hapus jika, dan hanya jika, entitas memiliki hak yang dapat dipaksakan secara hukum untuk melakukan saling hapus jumlah yang diakui; dan memiliki intensi untuk menyelesaikan dengan dasar neto, atau merealisasikan aset dan menyelesaikan liabilitas secara bersamaan.

Aset dan liabilitas pajak tangguhan diakui atas perbedaan temporer antara aset dan liabilitas untuk tujuan komersial dan tujuan perpajakan setiap tanggal pelaporan. Aset pajak tangguhan diakui untuk seluruh perbedaan temporer yang boleh dikurangkan sepanjang besar kemungkinan perbedaan temporer yang boleh dikurangkan tersebut dapat dimanfaatkan untuk mengurangi laba kena pajak pada masa yang akan datang. Manfaat pajak di masa mendatang, seperti saldo rugi fiskal yang belum digunakan, diakui sejauh besar kemungkinan realisasi atas manfaat pajak tersebut.

Aset dan liabilitas pajak tangguhan diukur pada tarif pajak yang diharapkan akan digunakan pada periode ketika aset direalisasi atau ketika liabilitas dilunasi berdasarkan tarif pajak (dan peraturan perpajakan) yang berlaku atau secara substansial telah diberlakukan pada akhir periode pelaporan.

Aset pajak tangguhan dan liabilitas pajak tangguhan dilakukan saling hapus jika, dan hanya jika, entitas memiliki hak secara hukum untuk saling hapus aset pajak kini terhadap liabilitas pajak kini, dan aset pajak tangguhan dan liabilitas pajak tangguhan terkait dengan pajak penghasilan yang dikenakan oleh otoritas perpajakan atas entitas kena pajak yang sama atau entitas kena bermaksud berbeda pajak yang memulihkan aset dan liabilitas pajak kini dengan dasar neto, atau merealisasikan aset dan menyelesaikan liabilitas secara bersamaan, pada setiap periode masa depan yang mana jumlah signifikan atas aset atau liabilitas pajak tangguhan diharapkan diselesaikan atau dipulihkan.

3. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

Income tax in profit or loss for the period comprises current and deferred tax. Income tax is recognized in profit or loss, except to the extent it relates to items recognized directly in equity or other comprehensive income in which case it is recognized in equity or other comprehensive income.

Current tax assets and current tax liabilities are offset if, and only if, the entity has a legally enforceable right to set off the recognized amounts; and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax assets and liabilities are recognized for temporary differences between the financial and tax bases of assets and liabilities at each reporting date. Deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that sufficient future taxable profit will be available against which the deductible temporary difference can be utilized. Future tax benefits, such as the carryforward of unused tax losses, are also recognized to the extent that realization of such benefits is probable.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if, and only if, the entity has a legally enforceable right to set off current tax assets against current tax liabilities, and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity, or different taxable entities that intend either to settle current tax liabilities and assets on a net basis, or to realize the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

3. KEBIJAKAN AKUNTANSI SIGNIFIKAN YANG DITERAPKAN (Lanjutan)

Perubahan terhadap kewajiban perpajakan diakui pada saat penetapan pajak diterima dan/atau, jika Perusahaan dan Entitas Anak mengajukan keberatan dan/atau banding, pada saat keputusan atas keberatan dan/atau banding telah ditetapkan.

2. Aset dan Liabilitas Pengampunan Pajak

Entitas Anak menerapkan PSAK No. 70, "Akuntansi Aset dan Liabilitas Pengampunan Pajak".

PSAK ini mengatur perlakuan akuntansi atas aset dan liabilitas pengampunan pajak sesuai dengan Undang-Undang No. 11/2016 tentang Pengampunan Pajak ("UU Pengampunan Pajak"), yang berlaku efektif tanggal 1 Juli 2016.

PSAK No. 70 memberikan pilihan kebijakan dalam pengakuan awal aset atau liabilitas yang timbul dari pelaksanaan UU Pengampunan Pajak, yaitu dengan mengikuti SAK yang relevan menurut sifat aset dan/atau liabilitas yang diakui (PSAK No. 70 Par. 06) atau mengikuti ketentuan yang diatur dalam PSAK No. 70 paragraf 10 hingga 23 (Pendekatan Opsional). Keputusan yang dibuat oleh entitas harus konsisten untuk semua aset dan liabilitas pengampunan pajak yang diakui.

Aset pengampunan pajak diakui sebesar biaya perolehan berdasarkan Surat Keterangan Pengampunan Pajak (SKPP). Liabilitas pengampunan pajak diakui sebesar kewajiban kontraktual untuk menyerahkan kas untuk menyelesaikan kewajiban yang berkaitan langsung dengan perolehan aset pengampunan pajak.

Entitas Anak mengakui selisih antara aset pengampunan pajak dan liabilitas pengampunan pajak sebagai bagian dari tambahan modal disetor di ekuitas. Selisih tersebut tidak dapat diakui sebagai laba atau rugi direalisasi maupun direklasifikasi ke saldo laba.

Entitas Anak telah memilih untuk mengukur kembali aset dan liabilitas pengampunan pajak sesuai dengan SAK pada tanggal SKPP. Selisih pengukuran kembali antara nilai wajar tersebut dengan biaya perolehan yang telah diakui sebelumnya, disesuaikan dalam saldo "Tambahan modal disetor".

3. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

Amendments to tax obligations are recorded when an assessment is received and/or, if objected to and/or appealed against by the Company and Subsidiaries, when the result of the objection and/or appeal is determined.

2. Assets and Liabilities under Tax Amnesty

The Subsidiaries applied PSAK No. 70, "Accounting for Tax Amnesty Assets and Liabilities".

This PSAK provides accounting treatment for assets and liabilities from Tax Amnesty in accordance with Law No. 11/2016 about Tax Amnesty ("Tax Amnesty Law"), which became on July 1, 2016.

PSAK No. 70 provides options in the initial recognition of the assets or liabilities arising from the implementation of the Tax Amnesty Law, whether to follow the relevant existing SAK according to the nature of the assets and/or liabilities recognized (PSAK No. 70 Par. 06) or to follow the provisions stated in PSAK No. 70 paragraphs 10 to 23 (Optional Approach). The decision made by the entity must be consistent for all recognized tax amnesty assets and/or liabilities.

Tax amnesty assets are measured at acquisition cost based on Tax Amnesty Acknowledgement Letter (SKPP). Tax amnesty liabilities are measured at contractual obligation to deliver cash to settle the obligations directly related to the acquisition of tax amnesty assets.

The Subsidiaries shall recognize the difference between assets and liabilities of tax amnesty as part of additional paid-in capital in equity. This difference shall not be recycled to profit or loss or reclassified to retained earnings subsequently.

The Subsidiaries have opted to remeasure their tax amnesty assets and liabilities according to SAK on the date of the SKPP. The difference between the aforementioned fair values with the acquisition cost initially recognized is adjusted to "Additional paid-in capital".

3. KEBIJAKAN AKUNTANSI SIGNIFIKAN YANG DITERAPKAN (Lanjutan)

Setelah Entitas Anak melakukan pengukuran kembali aset dan liabilitas pengampunan pajak sesuai SAK, Entitas Anak mereklasifikasi aset dan liabilitas pengampunan pajak tersebut ke dalam pos aset dan liabilitas serupa.

r. Pengukuran Nilai Wajar

Nilai wajar instrumen keuangan yang diperdagangkan di pasar aktif pada setiap tanggal pelaporan ditentukan dengan mengacu pada kuotasi harga pasar atau kuotasi harga pedagang efek (harga penawaran untuk posisi beli dan harga permintaan untuk posisi jual), tidak termasuk pengurangan apapun untuk biaya transaksi.

Untuk instrumen keuangan yang tidak memiliki pasar aktif, nilai wajar ditentukan dengan menggunakan teknik penilaian. Teknik penilaian mencakup penggunaan transaksi pasar terkini yang dilakukan secara wajar oleh pihak-pihak yang berkeinginan dan memahami (recent arm's length market transactions), penggunaan nilai wajar terkini instrumen lain yang secara substansial sama, analisa arus kas yang didiskonto, atau model penilaian lain.

s. Laba per Saham

Laba per saham dasar dihitung dengan membagi laba neto yang dapat diatribusikan kepada pemilik entitas induk dengan total rata-rata tertimbang saham biasa yang beredar selama tahun yang bersangkutan.

t. Informasi Segmen

Entitas mengungkapkan informasi yang memungkinkan pengguna laporan keuangan untuk mengevaluasi sifat dan dampak keuangan dari aktivitas bisnis dan menggunakan "pendekatan manajemen" dalam menyajikan informasi segmen menggunakan dasar yang sama seperti halnya pelaporan internal. Segmen operasi dilaporkan dengan cara yang konsisten dengan pelaporan internal yang disampaikan kepada pengambil keputusan operasional. Dalam hal ini pengambil keputusan operasional yang mengambil keputusan strategis adalah Direksi.

3. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

After the Subsidiaries remeasure their tax amnesty assets and liabilities according to SAK, the Subsidiaries reclassify the tax amnesty assets and liabilities into similar line items of assets and liabilities.

r. Fair Value Measurement

The fair value of financial instruments that are traded on active markets is determined at each reporting date by reference to quoted market prices or dealer price quotations (bid price for long position and price demand for short position), excluding any deduction for transaction costs.

For financial instruments where there is no active market, fair value is determined using valuation techniques. Such techniques may include using recent arm's length market transactions, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis, or other valuation models.

s. Earnings per Share

Basic earnings per share are computed by dividing net income attributable to the owners of the parent by the weighted average number of issued and outstanding shares of stock during the year.

t. Segment Information

Entities disclose information that enable users of the financial statements to evaluate the nature and financial effects of the business activities and use "management approach" under which segment information is presented on the same basis as that used for internal reporting purposes. Operating segment is reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker has been identified as the board of directors that makes strategic decisions.

3. KEBIJAKAN AKUNTANSI SIGNIFIKAN YANG DITERAPKAN (Lanjutan)

u. Provisi dan Kontinjensi

Provisi diakui jika, sebagai akibat peristiwa masa lalu, Perusahaan dan Entitas Anak memiliki kewajiban kini yang bersifat hukum maupun konstruktif yang dapat diestimasi secara andal, dan kemungkinan besar arus keluar sumber daya yang mengandung manfaat ekonomi diperlukan untuk menyelesaikan kewajiban tersebut. Provisi ditentukan dengan mendiskontokan perkiraan arus kas masa depan, dengan suatu tingkat diskonto sebelum pajak yang mencerminkan penilaian pasar atas nilai waktu dari uang dan risiko yang terkait dengan liabilitas yang bersangkutan.

Provisi ditelaah pada setiap akhir periode pelaporan dan disesuaikan untuk mencerminkan estimasi terbaik yang paling kini. Jika arus keluar sumber daya untuk menyelesaikan kewajiban kemungkinan besar tidak terjadi, maka provisi dibatalkan.

Aset dan liabilitas kontinjensi tidak diakui dalam laporan keuangan konsolidasian. Liabilitas kontinjensi diungkapkan dalam laporan keuangan konsolidasian, kecuali arus keluar sumber daya yang mengandung manfaat ekonomi kemungkinannya kecil. Aset kontinjensi diungkapkan dalam laporan keuangan konsolidasian, jika terdapat kemungkinan besar arus masuk manfaat ekonomis akan diperoleh.

4. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING

Penyusunan laporan keuangan konsolidasian, sesuai dengan Standar Akuntansi Keuangan di Indonesia, mewajibkan manajemen untuk membuat estimasi dan pertimbangan yang memengaruhi jumlah-jumlah yang dilaporkan dalam laporan keuangan. Sehubungan dengan adanya ketidakpastian yang melekat dalam membuat estimasi, hasil sebenarnya yang dilaporkan di masa mendatang dapat berbeda dengan jumlah estimasi yang dibuat.

Perusahaan dan Entitas Anak mendasarkan estimasi dan pertimbangannya pada parameter yang tersedia pada saat laporan keuangan konsolidasian disusun. Situasi mengenai perkembangan masa depan mungkin berubah akibat perubahan pasar atau situasi diluar kendali Perusahaan dan Entitas Anak. Perubahan tersebut dicerminkan dalam pertimbangan terkait pada saat terjadinya.

3. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

u. Provisions and Contingencies

Provision is recognized if, as a result of a past event, the Company and Subsidiaries have a present legal or constructive obligation that can be reliably estimated, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows, at a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Provisions are reviewed at each end of reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

Contingent assets and liabilities are not recognized in the consolidated financial statements. Contingent liabilities are disclosed in the consolidated financial statements, unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are disclosed in the consolidated financial statements where an inflow of economic benefits is probable.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of consolidated financial statements, in conformity with Indonesian Financial Accounting Standards, requires management to make estimations and judgments that affect amounts reported therein. Due to the inherent uncertainty in making estimates, actual results reported in future periods may differ from those estimates.

The Company and Subsidiaries based their estimations and judgments on parameters available when the consolidated financial statements are prepared. Existing circumstances about future developments may change due to market changes or circumstances arising beyond the control of the Company and Subsidiaries. Such changes are reflected in the judgments as they occur.

4. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Estimasi dan pertimbangan berikut ini dibuat oleh manajemen dalam rangka penerapan kebijakan akuntansi Perusahaan dan Entitas Anak yang memiliki pengaruh paling signifikan atas jumlah yang diakui dalam laporan keuangan konsolidasian:

Menentukan mata uang fungsional

Faktor-faktor yang dipertimbangkan dalam menentukan mata uang fungsional Perusahaan dan masing-masing Entitas Anak termasuk, antara lain, mata uang:

- yang paling memengaruhi harga jual barang dan iasa;
- dari negara yang kekuatan persaingan dan peraturannya sebagian besar menentukan harga jual barang dan jasa entitas;
- yang paling memengaruhi biaya tenaga kerja, bahan baku, dan biaya lain dari pengadaan barang atau jasa;
- yang mana dana dari aktivitas pendanaan dihasilkan; dan
- yang mana penerimaan dari aktivitas operasi pada umumnya ditahan.

Menentukan klasifikasi aset dan liabilitas keuangan

Perusahaan dan Entitas Anak menetapkan klasifikasi atas aset dan liabilitas tertentu sebagai aset keuangan dan liabilitas keuangan dengan mempertimbangkan apakah definisi yang ditetapkan PSAK No. 55 dipenuhi. Dengan demikian, aset keuangan dan liabilitas keuangan diakui sesuai dengan kebijakan akuntansi Perusahaan dan Entitas Anak seperti diungkapkan pada Catatan 3.

Menentukan nilai wajar dan perhitungan amortisasi biaya perolehan dari instrumen keuangan

Perusahaan dan Entitas Anak mencatat aset dan liabilitas keuangan tertentu pada nilai wajar dan biaya diamortisasi, yang mengharuskan perolehan penggunaan estimasi akuntansi. Sementara komponen signifikan atas asumsi yang digunakan perhitungan amortisasi biaya perolehan ditentukan menggunakan bukti objektif yang dapat diverifikasi, jumlah nilai wajar atau amortisasi dapat berbeda bila Perusahaan dan Entitas Anak menggunakan metodologi penilaian atau asumsi yang berbeda. Perubahan tersebut dapat memengaruhi secara langsung laba rugi Perusahaan dan Entitas Anak. Penjelasan lebih rinci diungkapkan dalam Catatan 43.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

The following estimations and judgments made by management in the process of applying the Company and Subsidiaries' accounting policies are those most likely to have significant effects on the amounts recognized in the consolidated financial statements:

Determining functional currency

The factors considered in determining the functional currency of the Company and each of its Subsidiaries include, among others, the currency:

- that mainly influences sales prices for goods and services;
- of the country whose competitive forces and regulations mainly determine the sales prices of its goods and services;
- that mainly influences labor, material and other costs of providing goods or services;
- in which funds from financing activities are generated; and
- in which receipts from operating activities are usually retained.

<u>Determining classification of financial assets and financial liabilities</u>

The Company and Subsidiaries determine the classification of certain assets and liabilities as financial assets and financial liabilities by judging if they meet the definition set forth in PSAK No. 55. Accordingly, the financial assets and financial liabilities are accounted for in accordance with the Company and Subsidiaries' accounting policies disclosed in Note 3.

<u>Determining fair value and calculation of cost</u> amortization of financial instruments

The Company and Subsidiaries records certain financial assets and liabilities at fair value and amortize costs, which requires the use of accounting estimates. While significant components of assumptions used in the calculation of cost amortization are determined using verifiable objective evidence, the fair value or amortization amount would differ if the Company and Subsidiaries utilize different valuation methodology or assumptions. Such changes would directly affect the Company and Subsidiaries' profit or loss. Further details are disclosed in Note 43.

4. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Menilai jumlah terpulihkan dari aset keuangan

Perusahaan dan Entitas Anak mengevaluasi akun piutang tertentu yang diketahui bahwa pelanggan tertentu tidak dapat memenuhi kewajiban keuangannya. Dalam hal tersebut, Perusahaan dan Entitas Anak menggunakan pertimbangan, berdasarkan fakta dan situasi yang tersedia, termasuk namun tidak terbatas pada, jangka waktu hubungan dengan pelanggan dan status kredit dari pelanggan berdasarkan catatan kredit dari pihak ketiga yang tersedia dan faktor pasar yang telah diketahui, untuk mencatat penyisihan spesifik atas pelanggan terhadap jumlah terutang guna mengurangi jumlah piutang yang diharapkan dapat diterima oleh Perusahaan dan Entitas Anak. Penyisihan spesifik ini dievaluasi kembali dan disesuaikan jika tambahan informasi yang diterima memengaruhi jumlah penyisihan atas penurunan nilai piutang. Penjelasan lebih rinci diungkapkan dalam Catatan 6.

Menilai penyisihan penurunan nilai pasar dan keusangan persediaan

Penyisihan penurunan nilai pasar dan keusangan persediaan diestimasi berdasarkan fakta dan situasi yang tersedia, termasuk namun tidak terbatas kepada, kondisi fisik persediaan yang dimiliki, harga jual pasar, estimasi biaya penyelesaian dan estimasi biaya yang timbul untuk penjualan. Penyisihan dievaluasi kembali dan disesuaikan jika terdapat tambahan informasi yang memengaruhi total yang diestimasi.

Pada tanggal 30 Juni 2020 dan 31 Desember 2019, Perusahaan dan Entitas Anak menilai bahwa tidak ada indikasi penurunan nilai pasar dan keusangan persediaan.

Menentukan metode penyusutan dan estimasi umur manfaat aset tetap

Biaya perolehan aset tetap disusutkan dengan menggunakan metode garis lurus berdasarkan estimasi masa manfaatnya. Manajemen mengestimasi masa manfaat aset tetap dua (2) tahun sampai dengan dua puluh lima (25) tahun. Ini adalah ekspektasi umur yang secara umum diterapkan dalam industri dimana Perusahaan dan Entitas Anak menjalankan bisnisnya. Perubahan tingkat pemakaian dan perkembangan teknologi dapat memengaruhi masa manfaat dan nilai sisa aset, dan karenanya biaya penyusutan masa depan mungkin direvisi. Penjelasan lebih rinci diungkapkan dalam Catatan 13.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

Assessing recoverable amounts of financial assets

The Company and Subsidiaries evaluates specific accounts receivable where they have information that certain customers are unable to meet their financial obligations. In these cases, the Company and Subsidiaries use judgment, based on available facts and circumstances, including but not limited to, the length of their relationship with the customer and the customer's current credit status based on any available third party credit reports and known market factors, to record specific provisions for customers against amounts due to reduce their receivable amounts to that the Company and Subsidiaries expect to collect. These specific provisions are re-evaluated and adjusted as additional information received affects the allowance impairment. Further details are disclosed in Note 6.

Assessing allowance for decline in market value and obsolescence of inventories

Allowance for impairment in market value and obsolescence of inventories is estimated based on available facts and circumstances, including but not limited to, the inventories own physical condition, their market selling prices, estimated costs of completion and estimated costs to be incurred for their sales. The provisions are re-evaluated and adjusted as additional information received affects the estimated amount.

As of June 30, 2020 and December 31, 2019, the Company and Subsidiaries assessed that there was no indication of decline in market value and obsolescence of their inventories.

<u>Determining depreciation method and estimated useful</u> lives of fixed assets

The costs of fixed assets are depreciated on a straightline basis over their estimated useful lives. Management properly estimates the useful lives of these fixed assets to be within two (2) years up to twenty-five (25) years. These are common life expectancies applied in the industries in which the Company and Subsidiaries conduct their business. Changes in the expected level of usage and technological development could impact on the useful lives and the residual values of these assets, and therefore future depreciation charges could be revised. Further details are disclosed in Note 13.

4. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Menilai penurunan nilai aset nonkeuangan tertentu

PSAK No. 48 mensyaratkan bahwa penilaian penurunan nilai dilakukan pada aset nonkeuangan tertentu apabila terdapat kejadian atau perubahan keadaan yang mengindikasikan bahwa jumlah tercatat tidak dapat diperoleh kembali. Faktor-faktor yang dianggap penting oleh Perusahaan dan Entitas Anak yang dapat memicu penelaahan atas penurunan nilai adalah sebagai berikut:

- (a) kinerja yang relatif kurang signifikan terhadap expected historical atau hasil operasional yang diharapkan dari proyek masa depan;
- (b) perubahan signifikan dalam cara penggunaan aset yang diperoleh atau strategi bisnis secara keseluruhan; dan
- (c) tren industri atau ekonomi yang negatif secara signifikan.

Kerugian akibat penurunan nilai diakui apabila jumlah tercatat aset nonkeuangan melebihi total yang dapat dipulihkan. Menentukan total yang dapat dipulihkan atas aset-aset tersebut membutuhkan estimasi atas arus kas yang diharapkan dapat dihasilkan dari penggunaan lanjutan dan disposisi akhir dari aset tersebut.

Pada tanggal 30 Juni 2020 dan 31 Desember 2019, Perusahaan dan Entitas Anak menilai bahwa tidak ada indikasi penurunan aset tetap dan aset tidak lancar lainnya.

Estimasi biaya dan liabilitas imbalan pascakerja

Penentuan liabilitas dan biaya imbalan pascakerja Perusahaan dan Entitas Anak bergantung pada pemilihan asumsi yang digunakan oleh aktuaris independen dalam menghitung jumlah-jumlah tersebut. Asumsi tersebut termasuk antara lain, tingkat diskonto, tingkat kenaikan gaji, tingkat pengunduran diri, tingkat cacat, usia pensiun dan tingkat mortalitas. Sementara Perusahaan dan Entitas Anak berkeyakinan bahwa asumsi tersebut adalah wajar dan sesuai, perbedaan signifikan pada hasil aktual atau perubahan signifikan dalam asumsi yang ditetapkan Perusahaan dan Entitas Anak dapat memengaruhi secara material liabilitas dan beban imbalan pascakerja. Penjelasan lebih rinci diungkapkan dalam Catatan 28.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

Assessing impairment of certain non-financial assets

PSAK No. 48 requires that an impairment review be performed on certain non-financial assets whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The factors the Company and Subsidiaries consider important that could trigger an impairment review include the following:

- (a) significant underperformance relative to the expected historical or project future operating results;
- (b) significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- (c) significant negative industry or economic trends.

An impairment loss is recognized whenever the carrying amount of a non-financial asset exceeds its recoverable amount. Determining the recoverable amount of such assets requires the estimation of cash flows expected to be generated from the continued use and ultimate disposition of such assets.

As of June 30, 2020 and December 31, 2019, the Company and Subsidiaries assessed that there was no indication of impairment of their fixed assets and other non-current assets.

Estimate of post-employment benefits expense and liability

The determination of the Company and Subsidiaries' liability and expense for post-employment benefits is dependent on their selection of certain assumptions used in calculating such amounts. These assumptions include among others, discount rate, salary increment rate, turnover rates, disability rate, retirement age and mortality rate. While the Company and Subsidiaries believe that their assumptions are reasonable and appropriate, significant differences in the Company and Subsidiaries' actual results or significant changes in the Company and Subsidiaries' assumptions may materially affect their post-employment liability and expense. Further details are disclosed in Note 28.

4. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Menentukan provisi atas pajak penghasilan

Pertimbangan signifikan dilakukan dalam menentukan provisi atas pajak penghasilan badan. Terdapat transaksi dan perhitungan tertentu yang penentuan pajak akhirnya adalah tidak pasti sepanjang kegiatan usaha normal. Perusahaan dan Entitas Anak mengakui liabilitas atas pajak penghasilan badan yang diharapkan berdasarkan estimasi apakah akan terdapat tambahan pajak penghasilan badan yang akan jatuh tempo.

Perusahaan dan Entitas Anak menelaah aset pajak tangguhan pada setiap tanggal pelaporan dan mengurangi jumlah tercatat sepanjang tidak ada kemungkinan bahwa laba kena pajak memadai untuk mengompensasi sebagian atau seluruh aset pajak tangguhan. Perusahaan dan Entitas Anak juga menelaah waktu yang diharapkan dan tarif pajak atas pemulihan perbedaan temporer dan menyesuaikan pengaruh atas pajak tangguhan yang sesuai. Penjelasan lebih rinci diungkapkan dalam Catatan 37.

Mengevaluasi perjanjian sewa

Perusahaan dan Entitas Anak menandatangani perjanjian sewa sebagai *lessee*. Manajemen melakukan penilaian dalam menentukan apakah semua risiko signifikan dan manfaat kepemilikan aset sewaan dialihkan kepada Perusahaan dan Entitas Anak. Sewa guna usaha dimana Perusahaan dan Entitas Anak memperoleh seluruh risiko signifikan dan manfaat kepemilikan aset sewaan diklasifikasikan sebagai sewa pembiayaan, jika sebaliknya maka diklasifikasikan sebagai sewa operasi. Penjelasan lebih rinci diungkapkan dalam Catatan 21.

Menilai pengendalian atau pengaruh signifikan pada entitas lain

Perusahaan menilai apakah pengaruh signifikan pada entitas lain melalui:

- adanya dewan perwakilan Perusahaan pada entitas lain dan pernyataan kontraktual.
- Perusahaan merupakan pemegang saham mayoritas dengan kepentingan ekuitas yang lebih besar dari pemegang saham lainnya.
- memiliki kekuatan untuk berpartisipasi dalam pengambilan keputusan keuangan dan operasi.

Penjelasan lebih rinci diungkapkan dalam Catatan 12.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

Determining provision for income tax

Significant judgment is involved in determining provision for corporate income tax. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Company and Subsidiaries recognize liabilities for expected corporate income tax based on estimates as to whether additional corporate income tax will be due.

The Company and Subsidiaries review their deferred tax assets at each reporting date and reduce the carrying amounts to the extent it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilized. The Company and Subsidiaries also review the expected timing and tax rates upon reversal of temporary differences and adjust the impact of deferred tax accordingly. Further details are disclosed in Note 37.

Evaluating lease agreements

The Company and Subsidiaries have entered into lease agreements as lessee. The management exercises judgment in determining whether all significant risk and rewards of ownership of the leased property are transferred to the Company and Subsidiaries. Leases wherein the Company and Subsidiaries acquire all significant risks and rewards of ownership of the leased property are accounted for as a finance leases, otherwise they are accounted for as operating leases. Further details are disclosed in Note 21.

<u>Assessing control or significant influence on other entities</u>

The Company has assessed its significant influence on other entities through:

- the presence of the board representative of the Company and the contractual term.
- the Company is the majority shareholder with greater interest than the other shareholders.
- has the power to participate in the financial and operating policy decisions.

Further details are disclosed in Note 12.

4. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Mengevaluasi provisi dan kontinjensi

Perusahaan dan Entitas Anak melakukan pertimbangan untuk membedakan antara provisi dan kontinjensi serta mempersiapkan provisi yang sesuai untuk proses hukum atau kewajiban konstruktif, jika ada, sesuai dengan kebijakan provisinya dan mempertimbangkan risiko dan ketidakpastian yang relevan.

Dalam situasi tertentu, Perusahaan dan Entitas Anak tidak dapat menentukan secara pasti jumlah liabilitas pajak mereka pada saat ini atau masa depan karena proses pemeriksaan, atau negosiasi dengan otoritas perpajakan. Ketidakpastian timbul terkait dengan interpretasi dari peraturan perpajakan yang kompleks serta jumlah dan waktu dari laba kena pajak di masa depan. Dalam menentukan jumlah yang harus diakui terkait dengan liabilitas pajak yang tidak pasti, Entitas Anak Perusahaan dan menerapkan pertimbangan yang sama yang akan mereka gunakan dalam menentukan jumlah cadangan yang harus diakui sesuai dengan PSAK No. 57, "Provisi, Liabilitas Kontinjensi, dan Aset Kontinjensi".

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

Evaluating provisions and contingencies

The Company and Subsidiaries exercise their judgment to distinguish between provisions and contingencies and set up appropriate provisions for their legal or constructive obligations, if any, in accordance with their policies on provisions and take the relevant risks and uncertainty into account.

In certain circumstances, the Company and Subsidiaries may not be able to determine the exact amount of their current or future tax liabilities due to ongoing investigations by, or negotiations with, the taxation authority. Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable profit. In determining the amount to be recognized in respect of an uncertain tax liability, the Company and Subsidiaries apply similar considerations as it would use in determining the amount of a provision to be recognized in accordance with PSAK No. 57, "Provisions, Contingent Liabilities and Contingent Assets."

Manajemen berkeyakinan bahwa tidak ada hambatan yang dapat mengganggu penyelesaian atas aset-aset tersebut.

Pada tanggal 30 Juni 2020 dan 31 Desember 2019, aset tetap digunakan sebagai jaminan atas pinjaman bank dan pembiayaan Musyarakah jangka pendek, dan pinjaman bank, utang Murabahah dan pembiayaan Musyarakah jangka panjang (Catatan 15, 16, 22 dan 23).

Pada tanggal 30 Juni 2020 dan 31 Desember 2019, jumlah tercatat bruto aset tetap yang telah disusutkan penuh dan masih digunakan masing-masing adalah sebesar USD1,83 miliar dan USD1,51 miliar.

Pada tanggal 30 Juni 2020 dan 31 Desember 2019, Perusahaan dan Entitas Anak telah mengasuransikan aset tetap (tidak termasuk hak atas tanah) dan persediaan secara *all risk* dengan nilai pertanggungan masing-masing sekitar USD9,1 miliar. Manajemen berkeyakinan bahwa nilai pertanggungan tersebut adalah cukup untuk menutup kemungkinan kerugian dari risiko-risiko tersebut.

Pada tanggal 30 Juni 2020 dan 31 Desember 2019, manajemen berkeyakinan bahwa tidak terdapat indikasi penurunan nilai aset tetap. The management believed that there were no obstacles that can interfere with the completion of these assets.

As of June 30, 2020 and December 31, 2019, fixed assets were pledged as collateral for the Company's short-term bank loans and Musyarakah financing, and long-term bank loans, Murabahah payable and Musyarakah financing (Notes 15, 16, 22 and 23).

As of June 30, 2020 and December 31, 2019, the gross carrying amount of fully depreciated fixed assets that were still in use amounted to USD1.83 billion and USD1.51 billion, respectively.

As of June 30, 2020 and December 31, 2019, the Company and Subsidiaries insured its fixed assets (excluding land rights) and inventories against all risks with total sum insured being approximately USD9.1 billion, respectively. Management believed that the insurance coverage was adequate to cover possible losses from such risks.

As of June 30, 2020 and December 31, 2019, management believed that there was no indication of impairment on its fixed assets.

14. UANG MUKA PEMBELIAN ASET TETAP - PIHAK KETIGA

Berdasarkan PSAK No. 68, "Pengukuran Nilai Wajar", terdapat tingkatan hirarki nilai wajar sebagai berikut:

- (a) harga kuotasian (tidak disesuaikan) dalam pasar aktif untuk aset atau liabilitas yang identik (Level 1),
- (b) input selain harga kuotasian yang termasuk dalam Level 1 yang dapat diobservasi untuk aset atau liabilitas, baik secara langsung (misalnya harga) atau secara tidak langsung (misalnya derivasi dari harga pasar) (Level 2), dan
- (c) input untuk aset atau liabilitas yang bukan berdasarkan data pasar yang dapat diobservasi (input yang tidak dapat diobservasi) (Level 3).

Based on PSAK No. 68, "Fair Value Measurement," there are levels of fair value hierarchy as follows:

- (a) quoted prices (unadjusted) on active markets for identical assets or liabilities (Level 1),
- (b) inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from market prices) (Level 2), and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

43. INSTRUMEN KEUANGAN (Lanjutan)

Nilai wajar untuk investasi jangka pendek berdasarkan kuotasi nilai pasar pada tanggal pelaporan yang termasuk dalam tingkat 1.

Metode dan asumsi berikut ini digunakan untuk mengestimasi nilai wajar untuk setiap kelompok instrumen keuangan sepanjang nilai tersebut dapat diestimasi:

Aset dan liabilitas keuangan jangka pendek:

 Instrumen keuangan jangka pendek dengan jatuh tempo satu tahun atau kurang (kas dan setara kas, piutang usaha, piutang lain-lain - pihak ketiga, aset lancar lainnya, pinjaman jangka pendek, pembiayaan Musyarakah jangka pendek, utang usaha, utang lain-lain, beban masih harus dibayar dan liabilitas jangka panjang yang akan jatuh tempo dalam waktu satu tahun).

Instrumen keuangan ini sangat mendekati jumlah tercatat mereka karena jatuh tempo mereka dalam jangka pendek.

Aset dan liabilitas keuangan jangka panjang:

 Liabilitas keuangan jangka panjang dengan suku bunga variabel (piutang pihak berelasi, liabilitas sewa pembiayaan, pinjaman bank jangka panjang dan utang Murabahah dan pembiayaan Musyarakah jangka panjang).

Nilai wajar dari liabilitas keuangan ini ditentukan dengan mendiskontokan arus kas masa datang menggunakan suku bunga yang berlaku dari transaksi pasar yang dapat diamati untuk instrumen dengan persyaratan, risiko kredit dan jatuh tempo yang sama (Level 2).

 Instrumen keuangan yang tidak dikuotasikan dalam pasar aktif (piutang pihak berelasi dan utang pihak berelasi).

Instrumen keuangan ini dicatat berdasarkan nilai nominal dikurangi penurunan nilai karena nilai wajarnya tidak dapat diukur secara andal. Adalah tidak praktis untuk memperkirakan nilai wajar dari instrumen keuangan dikarenakan tidak memiliki jangka waktu pembayaran yang tetap meskipun tidak diharapkan dapat diselesaikan dalam waktu dua belas (12) bulan setelah akhir periode pelaporan.

43. FINANCIAL INSTRUMENTS (Continued)

The fair value of the short-term investment is based on quoted market prices at the reporting date which is included in Level 1.

The following methods and assumptions were used to estimate the fair value of each class of financial instrument for which it is practicable to do so:

Short-term financial assets and liabilities:

 Short-term financial instruments with remaining maturities of one year or less (cash and cash equivalents, trade receivables, other receivables third parties, other current assets, short-term loans, short-term Musyarakah financing, trade payables, other payables, accrued expenses, and current maturities of long-term liabilities).

These financial instruments approximate to their carrying amounts largely due to their short-term maturities.

Long-term financial assets and liabilities:

 Long-term variable-rate financial liabilities (finance lease liabilities, long-term bank loans and long-term Murabahah payable and Musyarakah financing).

The fair value of these financial liabilities is determined by discounting future cash flows using applicable rates from observable current market transactions for instruments with similar terms, credit risk and remaining maturities (Level 2).

 Financial instruments not quoted on an active market (due from related parties and due to related parties).

These financial instruments are carried at their nominal amount less any impairment losses since their fair value cannot be reliably measured. It is not practical to estimate the fair value of these financial instruments because there are no fixed repayment terms although they are not expected to be settled within twelve (12) months after the end of the reporting period.

43. INSTRUMEN KEUANGAN (Lanjutan)

 Aset dan liabilitas keuangan jangka panjang lainnya (wesel bayar, pinjaman jangka Panjang, mediumterm notes dan utang obligasi).

Estimasi nilai wajar didasarkan pada nilai diskonto dari arus kas masa datang yang disesuaikan untuk mencerminkan risiko pihak lawan (untuk aset keuangan) dan risiko kredit Perusahaan dan Entitas Anak (untuk liabilitas keuangan) dan menggunakan suku bunga pasar.

45. TUJUAN DAN KEBIJAKAN MANAJEMEN RISIKO KEUANGAN

Risiko-risiko Keuangan

Perusahaan dan Entitas Anak dipengaruhi oleh berbagai risiko keuangan, termasuk risiko pasar (termasuk risiko nilai tukar mata uang, risiko tingkat bunga dan risiko fluktuasi harga), risiko kredit dan risiko likuiditas. Tujuan manajemen risiko Perusahaan dan Entitas Anak secara keseluruhan adalah untuk secara efektif mengendalikan risiko-risiko ini dan meminimalisasi pengaruh merugikan yang dapat terjadi terhadap kinerja keuangan mereka. Direksi mereviu dan menyetujui kebijakan untuk mengendalikan setiap risiko ini, yang diringkas di bawah ini, dan juga memonitor risiko harga pasar dari semua instrumen keuangan.

a. Risiko kredit

Eksposur Perusahaan dan Entitas Anak terhadap risiko kredit timbul dari wanprestasi pihak lain, dengan eksposur maksimum sebesar jumlah tercatat aset keuangan Perusahaan dan Entitas Anak, sebagai berikut:

	30 Jun 2020 / <i>Jun 30, 2020</i>	31 Des 2019 / Dec 31, 2019	
Kas dan setara kas			Cash and cash equivalents

Aset lancar lainnya	884.896	902.782	Other current assets
Total	2.958.713	2.983.072	Total

Perusahaan dan Entitas Anak memiliki dan menerapkan kebijakan dan prosedur pemberian kredit untuk memastikan adanya evaluasi kredit yang hati-hati dan pengawasan akun piutang yang aktif.

Perusahaan dan Entitas Anak mengelola risiko kredit yang terkait dengan simpanan di bank dengan memonitor reputasi, peringkat kredit dan membatasi risiko agregat dari masing-masing pihak dalam kontrak. Tidak terdapat konsentrasi risiko kredit yang signifikan terkait dengan piutang usaha, hal ini disebabkan keragaman pelanggan.

45. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

Financial Risks

The Company and Subsidiaries are affected by various financial risks, including market risk (including currency risk, interest rate risk and price fluctuation risk), credit risk and liquidity risk. The Company and Subsidiaries' overall risk management objectives are to effectively manage these risks and minimize potential adverse effects on their financial performance. The Board of Directors reviews and agrees with the policies for managing each of these risks, which are summarized below, and also monitors the market price risks arising from all financial instruments.

a. Credit risk

The Company and Subsidiaries' exposure to credit risk arises from the default of other parties, with maximum exposure equal to the carrying amounts of their financial assets, as follows:

The Company and Subsidiaries have in place credit policies and procedures to ensure prudent credit evaluation and active account monitoring.

The Company and Subsidiaries manage credit risk exposure from their deposits with banks by monitoring reputation, credit ratings and limiting the aggregate risk to any individual counterparty. There is no significant concentration of credit risk in respect to trade receivables due to their diverse customer base.

The analysis of the age of financial assets that were neither past due nor impaired and past due but not impaired at the end of the reporting period is as follows:

b. Risiko nilai tukar mata uang

Perusahaan dan Entitas Anak terkena risiko perubahan nilai tukar mata uang terutama dalam Rupiah Indonesia, Euro Eropa, Yen Jepang dan Yuan Cina atas biaya, aset dan liabilitas tertentu yang timbul karena aktivitas pendanaan dan kegiatan operasional sehari-hari. Informasi mengenai aset dan liabilitas moneter Perusahaan dan Entitas Anak dalam mata uang disajikan pada Catatan 39. Perusahaan dan Entitas Anak memonitor dan mengelola risiko ini dengan menyepadankan liabilitas keuangan dalam mata uang dengan aset keuangan dalam mata uang terkait dan melakukan pembelian atau penjualan mata uang saat diperlukan.

b. Currency exchange risk

The Company and Subsidiaries are exposed to currency exchange rate movements primarily in Indonesian Rupiah, European Euro, Japanese Yen and Chinese Yuan on certain expenses, assets and liabilities that arise from financing activities and daily operations. Information about monetary assets and liabilities of the Company and Subsidiaries in currencies are disclosed in Note 39. The Company and Subsidiaries monitor and manage the risk by matching the currency financial liabilities with relevant currency financial assets and buying or selling currencies at spot rates when necessary.

45. TUJUAN DAN KEBIJAKAN MANAJEMEN RISIKO KEUANGAN (Lanjutan)

Jika pada tanggal 30 Juni 2020, Dolar AS melemah/menguat 5% terhadap mata uang Rupiah Indonesia, Euro Eropa, Yen Jepang dan Yuan Cina, dengan seluruh variabel lain tetap, laba rugi dan ekuitas untuk periode yang berakhir pada tanggal 30 Juni 2020 akan menjadi lebih rendah/tinggi masing-masing sebesar sekitar USD24,8 juta.

c. Risiko tingkat suku bunga

Perusahaan dan Entitas Anak didanai dengan berbagai pinjaman bank, surat utang dan obligasi yang dikenakan bunga. Oleh karena itu, eksposur Perusahaan dan Entitas Anak terhadap risiko pasar sehubungan dengan perubahan tingkat suku bunga terutama atas liabilitas jangka panjang serta aset dan liabilitas yang dikenakan bunga. Kebijakan Perusahaan dan Entitas Anak adalah untuk memperoleh tingkat suku bunga yang paling menguntungkan tanpa meningkatkan eksposur terhadap mata uang asing dengan mengelola biaya pinjamannya menggunakan kombinasi antara utang dan liabilitas jangka panjang dengan tingkat suku bunga tetap dan mengambang.

Jika pada tanggal 30 Juni 2020, suku bunga lebih tinggi/rendah 50 basis poin dengan semua variabel lain tetap, maka laba rugi dan ekuitas untuk periode yang berakhir pada tanggal 30 Juni 2020 akan menjadi lebih rendah/tinggi sekitar USD0,4 juta, yang terutama timbul sebagai akibat beban bunga yang lebih tinggi/rendah atas pinjaman dengan suku bunga mengambang.

d. Risiko likuiditas

Manajemen risiko likuiditas yang hati-hati berimplikasi menyiapkan kas dan setara kas yang cukup untuk mendukung aktivitas usaha secara tepat waktu. Perusahaan dan Entitas Anak menjaga keseimbangan antara kontinuitas penerimaan piutang dan fleksibilitas dengan menggunakan utang bank dan pinjaman lainnya.

Tabel di bawah menunjukkan analisis jatuh tempo liabilitas keuangan Perusahaan dan Entitas Anak dalam rentang waktu yang menunjukkan jatuh tempo kontraktual untuk semua liabilitas keuangan non-derivatif, yang diperlukan dalam pemahaman jatuh tempo kebutuhan arus kas. Jumlah yang diungkapkan dalam tabel adalah arus kas kontraktual yang tidak terdiskonto (tidak termasuk beban bunga pinjaman masa yang akan datang).

45. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

If as of June 30, 2020, US Dollar had weakened/strengthened by 5% against Indonesian Rupiah, European Euro, Japanese Yen and China Yuan, with all other variables held constant, profit or loss and equity for the period ended June 30, 2020 would have a decrease/an increase of approximately USD24.8 million.

c. Interest rate risk

The Company and Subsidiaries are financed through interest-bearing bank loans, notes and bonds. Therefore, the Company and Subsidiaries' exposures to market risk for changes in interest rates relate primarily to their long-term borrowings and interest-bearing assets and liabilities. The Company and Subsidiaries' policies are to obtain the most favorable interest rates available without increasing their foreign currency exposure by managing their interest cost using a mixture of fixed and floating rate debts and long-term borrowings.

If as of June 30, 2020, the interest rates had been 50 basis points higher/lower with all variables held constant, profit or loss and equity for the period ended June 30, 2020 would have been lower/higher by approximately USD0.4 million, mainly as a result of higher/lower interest expense on floating rate loans.

d. Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and cash equivalents to support business activities on a timely basis. The Company and Subsidiaries maintain a balance between continuity of accounts receivable collectibility and flexibility through the use of bank loans and other borrowings.

The following table analyzes the Company and Subsidiaries' financial liabilities into relevant maturity groupings based on their contractual maturities for all non-derivative financial liabilities, which are essential in understanding the timing of cash flows requirements. The amounts disclosed in the table are the contractual undiscounted cash flows (excluding future interest expense).

45. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Capital Management

The main objective of the Company and Subsidiaries' capital management is to ensure that they maintain a healthy capital ratio in order to support their business and maximize shareholder value. The Company and Subsidiaries manage their capital structure and make adjustments with respect to changes in economic conditions and the characteristics of their business risks. No changes have been made in the objectives, policies and processes from those applied in previous years.

The Company and Subsidiaries monitor their use of capital structure using a debt-to-equity ratio, which is total debt divided by total equity. Total debt represents interest-bearing borrowings, while equity represents total equity attributable to owners of the parent and non-controlling interest.

Debt-to-equity ratio is as follows:
