Control also exists when the Company owns half or less of the voting power of an entity but there is:

Kepentingan nonpengendali mencerminkan bagian atas laba atau rugi dan aset neto dari entitas-entitas anak yang dapat diatribusikan secara langsung maupun tidak langsung oleh Perusahaan, yang masing-masing disajikan dalam laporan laba rugi komprehensif konsolidasian dan dalam ekuitas pada laporan posisi keuangan konsolidasian, dipisahkan dari ekuitas yang dapat diatribusikan kepada pemilik entitas induk.

- (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

f. Financial Instruments

Effective January 1, 2014, the Company and Subsidiaries adopted ISAK No. 27, "Transfer of Assets from Customers" and ISAK No. 28, "Extinguishing Financial Liabilities with Equity Instruments." The adoption of these interpretations did not have material impact in the consolidated financial statements.

1. Financial Assets

Initial recognition

Financial assets are recognized initially at fair value plus transaction costs, except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value. Financial assets are classified as financial assets at fair value through profit or loss (FVTPL), held-to-maturity investments (HTM), loans and receivables or available-for-sale financial assets (AFS). The Company and Subsidiaries determine the classification of their financial assets at initial recognition and, where allowed and appropriate, re-evaluate the designation of such assets at each end of reporting period.

As of June 30, 2015 and December 31, 2014, the Company and Subsidiaries' financial assets consisted of FVTPL and loans and receivables.

Subsequent measurement

 Financial assets at fair value through profit or loss (FVTPL)

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Aset keuangan diklasifikasikan sebagai FVTPL jika aset keuangan diperoleh untuk diperdagangkan atau ditetapkan sebagai FVTPL pada saat pengakuan awal. Aset keuangan diklasifikasikan sebagai kelompok diperdagangkan jika diperoleh untuk tujuan dijual atau dibeli kembali dalam waktu dekat. Aset derivatif juga diklasifikasikan sebagai kelompok diperdagangkan kecuali aset derivatif tersebut ditetapkan sebagai instrumen lindung nilai efektif. Aset keuangan yang ditetapkan sebagai FVTPL disajikan dalam laporan posisi keuangan konsolidasian pada nilai wajar dengan keuntungan atau kerugian dari perubahan nilai wajar diakui dalam laba rugi. Keuntungan atau kerugian yang diakui dalam laba rugi termasuk dividen atau bunga yang diperoleh dari aset keuangan.

• Pinjaman yang diberikan dan piutang

Pinjaman yang diberikan dan piutang adalah aset keuangan non derivatif dengan pembayaran tetap atau telah ditentukan, yang tidak mempunyai kuotasi di pasar aktif. Aset keuangan tersebut diukur sebesar biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif, dikurangi dengan penurunan nilai. Keuntungan dan kerugian diakui dalam laba rugi pada saat pinjaman yang diberikan dan piutang dihentikan pengakuannya atau mengalami penurunan nilai, serta melalui proses amortisasi.

Penurunan nilai aset keuangan

Pada setiap tanggal pelaporan, Perusahaan dan Entitas Anak mengevaluasi apakah aset keuangannya mengalami penurunan nilai. Jika terdapat bukti obyektif penurunan nilai, maka jumlah kerugian tersebut, yang diukur sebagai selisih antara nilai tercatat aset dengan nilai kini estimasi arus kas masa datang (tidak termasuk kerugian kredit di masa datang yang belum terjadi) yang didiskonto menggunakan suku bunga efektif yang dihitung saat pengakuan awal aset tersebut, diakui pada laba rugi.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial assets are classified as at FVTPL where the financial assets are either held for trading or are designated as FVTPL at initial recognition. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivative assets are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets at FVTPL are carried on the consolidated statements of financial position at fair value with gains or losses recognized in profit or loss. The gains or losses recognized in profit or loss include any dividend or interest earned from the financial assets.

• Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted on an active market. Such financial assets are carried at amortized cost using the effective interest method, less any impairment. Gains and losses are recognized in profit or loss when the loans and receivables are derecognized or impaired, as well as through the amortization process.

Impairment of financial assets

The Company and Subsidiaries evaluate at each reporting date whether any of their financial assets are impaired. If there is objective evidence of impairment, the amount of loss, which is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not been incurred) discounted at the effective interest rate computed at initial recognition of the asset, is recognized in profit or loss.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Penghentian pengakuan aset keuangan

Perusahaan dan Entitas Anak menghentikan pengakuan aset keuangan, jika dan hanya jika, hak kontraktual atas arus kas yang berasal dari aset keuangan tersebut berakhir, atau Perusahaan dan Entitas Anak mentransfer hak kontraktual untuk menerima arus kas yang berasal dan dari aset keuangan, atau tetap memiliki hak kontraktual untuk menerima arus kas yang berasal dari aset keuangan namun juga menanggung kewajiban kontraktual untuk membayar arus kas yang diterima tersebut kepada satu atau lebih pihak penerima melalui suatu kesepakatan yang memenuhi persyaratan tertentu. Ketika Perusahaan dan Entitas Anak mentransfer aset keuangan, maka Perusahaan dan Entitas Anak mengevaluasi sejauh mana Perusahaan dan Entitas Anak tetap memiliki risiko dan manfaat atas kepemilikan aset keuangan tersebut.

2. Liabilitas Keuangan dan Instrumen Ekuitas

Pengakuan awal

Perusahaan dan Entitas Anak menetapkan klasifikasi liabilitas keuangannya pada saat pengakuan awal. Instrumen utang dan ekuitas dikelompokkan sebagai liabilitas keuangan atau sebagai ekuitas sesuai dengan substansi pengaturan kontraktual.

Liabilitas keuangan diklasifikasikan sebagai liabilitas keuangan yang diukur pada nilai wajar melalui laporan laba rugi atau liabilitas keuangan yang diukur pada biaya perolehan diamortisasi. Liabilitas keuangan diakui pada awalnya sebesar nilai wajar dan, dalam hal pinjaman dan utang, termasuk biaya transaksi yang dapat diatribusikan secara langsung.

Instrumen ekuitas adalah setiap kontrak yang memberikan hak residual atas aset suatu entitas setelah dikurangi seluruh liabilitasnya. Instrumen ekuitas yang diterbitkan oleh Perusahaan dan Entitas Anak dicatat sebesar hasil yang diperoleh, dikurangi biaya penerbitan instrumen ekuitas.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Derecognition of financial assets

The Company and Subsidiaries shall derecognize financial assets, when, and only when, the contractual rights to the cash flows from the financial asset expire, the contractual rights to receive the cash flows of the financial asset are transferred to another entity, or the contractual rights to receive the cash flows of the financial asset are retained but they assume a contractual obligation to pay the cash flows to one or more recipients in an arrangement that meets certain conditions. When the Company and Subsidiaries transfer a financial asset, they shall evaluate the extent to which they retain the risks and rewards of ownership of the financial asset.

2. Financial Liabilities and Equity Instruments

Initial recognition

The Company and Subsidiaries determine the classification of their financial liabilities at initial recognition. Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

Financial liabilities are classified as financial liabilities at fair value through profit or loss or financial liabilities measured at cost. Financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, inclusive of directly attributable transaction costs.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company and Subsidiaries are recorded at the proceeds received, net of direct issuance costs.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Instrumen keuangan majemuk, seperti obligasi atau instrumen sejenis yang dapat dikonversi oleh pemegangnya menjadi saham biasa dengan total yang telah ditetapkan, dipisahkan antara liabilitas keuangan dan ekuitas sesuai dengan substansi pengaturan kontraktual. Pada tanggal penerbitan instrumen keuangan majemuk, nilai wajar dari komponen liabilitas diestimasi dengan menggunakan suku bunga yang berlaku di pasar untuk instrumen non-convertible yang serupa. Total ini dicatat sebagai liabilitas dengan dasar biaya perolehan diamortisasi menggunakan metode suku bunga efektif sampai dengan liabilitas tersebut berakhir melalui konversi atau pada tanggal instrumen jatuh tempo. Komponen ekuitas ditentukan dengan cara mengurangkan total komponen liabilitas dari keseluruhan nilai wajar instrumen keuangan majemuk. Total tersebut diakui dan dicatat dalam ekuitas. dikurangi dengan pajak penghasilan, dan tidak ada pengukuran setelah pengakuan awal.

Pada tanggal 30 Juni 2015 dan 31 Desember 2014, liabilitas keuangan Perusahaan dan Entitas Anak terdiri dari liabilitas keuangan yang diukur pada biaya perolehan diamortisasi (Catatan 42).

Pengukuran selanjutnya

Setelah pengakuan awal, liabilitas keuangan dalam kategori ini selanjutnya diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Keuntungan atau kerugian diakui dalam laba rugi pada saat liabilitas tersebut dihentikan pengakuannya serta melalui proses amortisasi.

Penghentian pengakuan liabilitas keuangan

Perusahaan dan Entitas Anak menghentikan pengakuan liabilitas keuangan jika, dan hanya jika, kewajiban Perusahaan dan Entitas Anak dihentikan, dibatalkan atau kadaluwarsa. PT INDAH KIAT PULP & PAPER Tbk

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Compound financial instruments, a bond or similar instrument convertible by the holder into a fixed number of ordinary shares, are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangement. At the date of issuance of compound financial instruments, the fair value of the liability component is estimated using the prevailing market interest rate for a similar nonconvertible instrument. This amount is recorded as a liability on an amortized cost basis using the effective interest method until extinguished upon conversion or at the instrument's maturity date. The equity component is determined by deducting the amount of the liability component from the fair value of the compound financial instruments as a whole. This amount is recognized and included in equity, net of income tax effects, and is not subsequently remeasured.

As of June 30, 2015 and December 31, 2014, the Company and Subsidiaries' financial liabilities consisted of liabilities at amortized cost (Note 42).

Subsequent measurement

After initial recognition, financial liabilities in this category are subsequently measured at amortized cost using the effective interest method. Gains or losses are recognized in profit or loss when the liabilities are derecognized, as well as through the amortization process.

Derecognition of financial liabilities

The Company and Subsidiaries derecognize financial liabilities when, and only when, the Company and Subsidiaries' obligations are discharged, cancelled or expire.

3. Saling hapus instrumen keuangan

Aset keuangan dan liabilitas keuangan saling hapus dan nilai netonya dilaporkan dalam laporan posisi keuangan konsolidasian jika, dan hanya jika, saat ini memiliki hak yang berkekuatan hukum untuk melakukan saling hapus atas total yang telah diakui dan terdapat niat untuk menyelesaikannya secara neto, atau untuk merealisasikan aset dan menyelesaikan liabilitasnya secara simultan.

4. Instrumen keuangan yang diukur pada biaya perolehan diamortisasi

Biaya perolehan diamortisasi dihitung menggunakan metode suku bunga efektif dikurangi dengan penyisihan atas penurunan nilai dan pembayaran pokok atau nilai yang tidak dapat ditagih. Perhitungan tersebut mempertimbangkan premium atau diskonto pada saat perolehan dan termasuk biaya transaksi dan biaya yang merupakan bagian yang tidak terpisahkan dari suku bunga efektif.

Suku bunga efektif adalah suku bunga yang secara tepat mendiskontokan estimasi arus kas masa datang selama perkiraan umur dari instrumen keuangan, atau jika lebih tepat, digunakan periode yang lebih singkat, untuk nilai tercatat neto instrumen keuangan. Total bunga berdasarkan penerapan metode suku bunga efektif diakui sebagai pendapatan atau beban bunga.

g. Persediaan

Persediaan dinyatakan sebesar nilai yang lebih rendah antara biaya perolehan atau nilai realisasi neto (the lower of cost or net realizable value). Biaya perolehan ditentukan dengan metode rata-rata tertimbang (weighted-average method). Biaya barang jadi yang diproduksi dan barang dalam proses termasuk alokasi sistematis overhead produksi. Penyisihan persediaan usang ditentukan berdasarkan hasil penelaahan atas keadaan persediaan pada akhir periode pelaporan.

h. Biaya Dibayar Dimuka

Biaya dibayar dimuka diamortisasi selama masa manfaat masing-masing biaya.

3. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

4. Financial instruments measured at amortized cost

Amortized cost is computed using the effective interest rate method less any allowance for impairment and principal repayment or reduction. The calculation takes into account any premium or discount on acquisition and includes transaction costs and fees that are an integral part of the effective interest rate.

The effective interest rate is the rate that exactly discounts estimated future cash flows through the expected life of the financial instrument or when appropriate, a shorter period, to the net carrying amount of the financial instrument. The interest amount based on the application of effective interest method is recognized as interest income or expense.

g. Inventories

Inventories are valued at the lower of cost or net realizable value. Cost is determined using the weighted-average method. Cost of finished goods produced and work in process includes a systematic allocation of production overheads. Allowance for diminution in value of inventories is provided based on a review of the condition of inventories at the end of the reporting period.

h. Prepaid Expenses

Prepaid expenses are amortized over the periods benefited.

i. Investasi pada Entitas Asosiasi

Entitas asosiasi adalah suatu entitas di mana Perusahaan dan Entitas Anak mempunyai pengaruh signifikan dan bukan merupakan entitas anak (Catatan 2b) maupun bagian partisipasi dalam ventura bersama. Pemilikan, secara langsung maupun tidak langsung, 20% atau lebih hak suara investee dianggap pemilikan pengaruh signifikan, kecuali dapat dibuktikan dengan jelas hal yang sebaliknya.

Investasi pada entitas asosiasi dicatat dengan menggunakan metode ekuitas, dimana pada awalnya diakui sebesar biaya perolehan. Selanjutnya, bagian Perusahaan dan Entitas Anak atas laba rugi entitas asosiasi, setelah penyesuaian yang diperlukan terhadap dampak penyeragaman kebijakan akuntansi dan eliminasi laba atau rugi yang dihasilkan dari transaksi antara Perusahaan dan Entitas Anak dan entitas asosiasi, akan menambah atau mengurangi jumlah tercatat investasi tersebut dan diakui sebagai laba rugi Perusahaan dan Entitas Anak. Penerimaan distribusi dari entitas asosiasi mengurangi nilai tercatat investasi. Penyesuaian terhadap jumlah tercatat tersebut juga diperlukan jika terdapat perubahan dalam proporsi bagian Perusahaan dan Entitas Anak atas entitas asosiasi yang timbul dari pendapatan komprehensif lain dari entitas asosiasi. Bagian Perusahaan dan Entitas Anak atas perubahan tersebut diakui dalam pendapatan komprehensif lain dari Perusahaan dan Entitas Anak.

Goodwill yang terkait dengan akuisisi entitas asosiasi termasuk dalam jumlah tercatat investasi. Jika terdapat goodwill negatif, maka jumlah tersebut diakui di dalam laba rugi. Goodwill tidak diamortisasi dan dilakukan uji penurunan nilai setiap tahun.

Apabila nilai tercatat investasi telah mencapai nilai nol, kerugian selanjutnya akan diakui bila Perusahaan dan Entitas Anak mempunyai komitmen untuk menyediakan bantuan pendanaan atau menjamin kewajiban entitas asosiasi yang bersangkutan.

Perubahan nilai investasi yang disebabkan oleh terjadinya perubahan nilai ekuitas di entitas asosiasi yang timbul dari transaksi modal di entitas asosiasi dengan pihak ketiga diakui sebagai pendapatan komprehensif lain dan akan diakui sebagai pendapatan atau beban pada saat pelepasan investasi yang bersangkutan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. Investment in Associates

An associate is an entity in which the Company and Subsidiaries have significant influence and that is neither a subsidiary (Note 2b) nor an interest in a joint venture. Direct or indirect ownership of 20% or more of the voting power of an investee is presumed to be an ownership of significant influence, unless it can be clearly demonstrated that this is not the case.

Investment in an associate is accounted for using the equity method, under which it is initially recognized at cost. Subsequently, the Company and Subsidiaries' share of the profit or loss of the associate, after any adjustments necessary to give effect to uniform accounting policies and elimination of profits and losses resulting from transactions between the Company and Subsidiaries and the associate, increases or decreases their carrying amount and is recognized in the Company and Subsidiaries' profit or loss. Distributions received from the associate reduce the carrying amount of the investment. Adjustments to the carrying amount may also be necessary for changes in the Company and Subsidiaries' proportionate interest in the associate arising from changes in the associate's other comprehensive income. The Company and Subsidiaries' share of these changes is recognized in other comprehensive income of the Company and Subsidiaries.

Goodwill on acquisition of associate is included in the carrying amount of the investment. In case of negative goodwill, such amount is recognized in profit or loss. Goodwill is no longer amortized but annually assessed for impairment.

Once an investment's carrying value has been reduced to zero, further losses are taken up if the Company and Subsidiaries have committed to provide financial support to, or have guaranteed the obligations of the associates.

Changes in value of the investments due to changes of equity in associates arising from capital transactions of such associates with other parties are recognized as other comprehensive income and recognized as income or expenses in the period in which disposal of the investments occurs.

j. Aset Tetap

Perusahaan dan Entitas Anak telah memilih untuk menggunakan model biaya sebagai kebijakan akuntansi pengukuran aset tetapnya.

Aset tetap, selain hak atas tanah, dinyatakan sebesar harga perolehan/nilai revaluasi dikurangi akumulasi penyusutan. Penyusutan dihitung dengan menggunakan metode garis lurus berdasarkan taksiran masa manfaat ekonomis aset tetap sebagai berikut:

j. Fixed Assets

The Company and Subsidiaries have chosen the cost model as the accounting policy for their fixed assets measurement.

Fixed assets, other than land rights, are stated at cost or revalued figure less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of fixed assets as follows:

	Tahun/ <i>Years</i>	
Prasarana	12 - 20	Land improvements
Bangunan	11 - 20	Buildings
Mesin	25	Machinery
Peralatan pengangkutan, perabot,		Transportation equipment, furniture,
peralatan kantor dan peralatan lain-lain	2 - 5	fixtures and other equipment

Pada setiap akhir periode pelaporan, nilai residu, umur manfaat dan metode penyusutan ditelaah kembali, dan jika perlu disesuaikan.

Aset dalam pengerjaan dinyatakan sebesar biaya perolehan dan disajikan sebagai bagian dari "Aset Tetap" dalam laporan posisi keuangan konsolidasian. Akumulasi biaya perolehan akan dipindahkan ke masing-masing akun aset tetap yang bersangkutan pada saat aset tersebut selesai dikerjakan dan siap digunakan.

Beban perbaikan dan pemeliharaan dibebankan pada laba rugi pada saat terjadinya; biaya penggantian atau inspeksi yang signifikan dikapitalisasi pada saat terjadinya jika besar kemungkinan manfaat ekonomis di masa depan berkenaan dengan aset tersebut akan mengalir ke Perusahaan dan Entitas Anak, dan biaya perolehan aset dapat diukur secara andal. Aset tetap dihentikan pengakuannya pada saat dilepaskan atau ketika tidak ada manfaat ekonomis masa depan yang diharapkan dari penggunaan atau pelepasannya. Laba atau rugi yang timbul dari penghentian pengakuan aset dimasukkan dalam laba rugi pada periode aset tersebut dihentikan pengakuannya.

At end of reporting period, the assets' residual value, useful lives and method of depreciation are reviewed, and adjusted if appropriate.

Assets under construction are stated at cost and presented as part of "Fixed Assets" in the consolidated statements of financial position. The accumulated costs will be reclassified to the appropriate fixed assets account when construction is complete and the assets are ready for their intended use.

The cost of repairs and maintenance is charged to profit or loss as incurred; replacement or major inspection costs are capitalized when incurred if it is probable that future economic benefits associated with the item will flow to the Company and Subsidiaries, and the cost of the item can be reliably measured. An item of fixed assets is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is included in profit or loss in the period the asset is derecognized.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

k. Sewa

Sewa yang mengalihkan secara substansial semua risiko dan manfaat yang terkait dengan kepemilikan aset kepada lessee diklasifikasikan sebagai sewa pembiayaan. Pada awal masa sewa, sewa pembiayaan dikapitalisasi sebesar nilai wajar aset sewaan atau sebesar nilai kini dari pembayaran sewa minimum, jika nilai kini lebih rendah dari nilai wajar. Pembayaran sewa minimum dipisahkan antara bagian yang merupakan beban keuangan dan bagian yang merupakan pelunasan liabilitas sehingga menghasilkan suatu tingkat bunga periodik yang konstan atas saldo liabilitas. Beban keuangan dibebankan pada laba rugi. Aset sewaan yang dimiliki oleh lessee dengan dasar sewa pembiayaan dicatat pada akun aset tetap dan disusutkan sepanjang masa manfaat dari aset sewaan tersebut atau periode masa sewa, mana yang lebih pendek, jika tidak ada kepastian yang memadai bahwa lessee akan mendapatkan hak kepemilikan pada akhir masa

Sewa yang tidak mengalihkan secara substansial seluruh risiko dan manfaat yang terkait dengan kepemilikan aset diklasifikasikan sebagai sewa operasi.

I. Penurunan Nilai Aset Non-Keuangan

Pada setiap akhir periode pelaporan, Perusahaan dan Entitas Anak menilai apakah terdapat indikasi aset mengalami penurunan nilai. Jika terdapat indikasi tersebut, maka Perusahaan dan Entitas Anak mengestimasi jumlah terpulihkan aset tersebut. Jumlah terpulihkan suatu aset atau unit penghasil kas adalah jumlah yang lebih tinggi antara nilai wajar dikurangi biaya untuk menjual dan nilai pakainya. Jika jumlah terpulihkan suatu aset lebih kecil dari nilai tercatatnya, nilai tercatat aset harus diturunkan menjadi sebesar jumlah terpulihkan. Kerugian penurunan nilai diakui segera dalam laba rugi.

Rugi penurunan nilai yang telah diakui dalam periode-periode sebelumnya untuk aset (selain goodwill) dibalik jika, dan hanya jika, terdapat perubahan estimasi yang digunakan untuk menentukan jumlah terpulihkan aset tersebut sejak rugi penurunan nilai terakhir diakui. Jika demikian, jumlah tercatat aset dinaikkan ke jumlah terpulihkannya, tetapi tidak melebihi jumlah tercatat (neto setelah amortisasi atau penyusutan) seandainya aset tidak mengalami rugi penurunan nilai pada tahun-tahun sebelumnya.

k. Leases

Leases that transfer substantially all the risks and benefits incidental to ownership of the leased item to the lessee are classified as finance leases. Finance leases are capitalized at the inception of the lease at the fair value of the leased assets or at the present value of the minimum lease payments if the present value is lower than the fair value. Minimum lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recorded in profit or loss. Leased assets held by the lessee under finance leases are included in fixed assets and depreciated over the estimated useful life of the assets or the lease term, whichever is shorter, if there is no reasonable certainty that lessee will obtain ownership by the end of the lease term.

Leases that do not transfer substantially all the risks and benefits incidental to ownership of the leased item are classified as operating leases.

I. Impairment of Non-Financial Assets

The Company and Subsidiaries evaluate at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the Company and Subsidiaries estimate the recoverable amount of the asset. The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use. Whenever the carrying amount of an asset exceeds its recoverable amount, the asset is considered to be impaired and is written down to its recoverable amount. The impairment loss is recognized immediately in profit or loss.

An impairment loss recognized in prior periods for an asset (other than goodwill) will be reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If this is the case, the carrying amount of the asset will be increased to its recoverable amount, but will not exceed the carrying amount that would have been determined (net of amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Kenaikan ini merupakan suatu pembalikan rugi penurunan nilai yang diakui segera dalam laba rugi.

m. Biaya Pinjaman

Biaya pinjaman, baik yang secara langsung maupun tidak langsung digunakan untuk mendanai suatu proses pembangunan aset tertentu yang memenuhi syarat ("aset kualifikasian"), dikapitalisasi hingga saat proses pembangunannya selesai. Untuk pinjaman yang secara khusus digunakan untuk perolehan aset kualifikasian, jumlah yang dikapitalisasi adalah sebesar biaya pinjaman yang terjadi selama periode berjalan, dikurangi dengan pendapatan investasi jangka pendek dari pinjaman tersebut. Untuk pinjaman yang tidak secara khusus digunakan untuk perolehan aset kualifikasian, jumlah biaya pinjaman yang dikapitalisasi ditentukan dengan mengalikan tingkat kapitalisasi tertentu terhadap pengeluaran untuk aset kualifikasian tersebut.

n. Pengakuan Pendapatan dan Beban

Pendapatan diakui bila besar kemungkinan manfaat ekonomi akan diperoleh oleh Perusahaan dan Entitas Anak dan jumlahnya dapat diukur secara handal. Pendapatan diukur pada nilai wajar imbalan yang diterima, tidak termasuk diskon, rabat dan pajak penjualan (PPN).

Penjualan lokal diakui pada saat hak kepemilikan beralih kepada pelanggan. Penjualan ekspor diakui pada saat barang dimuat di atas kapal pelabuhan pengirim (f.o.b. shipping point). Penjualan disajikan neto dari pajak pertambahan nilai, retur penjualan, klaim dan potongan harga.

Beban diakui pada saat terjadinya atau diamortisasi selama masa manfaatnya (accrual basis).

o. Transaksi dan Saldo dalam Mata Uang Asing

Transaksi dalam mata uang selain USD dijabarkan ke USD berdasarkan kurs yang berlaku pada tanggal transaksi. Pada akhir periode pelaporan, seluruh aset dan liabilitas moneter dalam mata uang selain USD dijabarkan ke USD dengan menggunakan kurs tengah yang ditetapkan oleh Bank Indonesia pada tanggal tersebut. Laba atau rugi selisih kurs yang timbul diakui dalam laporan laba rugi komprehensif konsolidasian tahun berjalan.

That increase is a reversal of an impairment loss and is recognized immediately in profit or loss.

m. Borrowing Costs

Borrowing costs, either directly or indirectly used in financing the construction of a qualifying asset, are capitalized up to the date when construction is complete. For borrowings that are specific to the acquisition of a qualifying asset, the amount to be capitalized is determined as the actual borrowing costs incurred during the period, less any income earned from the temporary investment of such borrowings. For borrowings that are not specific to the acquisition of a qualifying asset, the amount to be capitalized is determined by applying a capitalization rate to the amount expensed on the qualifying asset.

n. Revenue and Expense Recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company and Subsidiaries and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates and sales taxes (VAT).

Local sales are recognized when title passes to the customer. Export sales are recognized upon loading of the goods for shipment to customers (f.o.b. shipping point). Sales are presented net of value-added tax, sales returns, claims and price discounts.

Expenses are recognized when incurred or amortized according to their beneficial periods (accrual basis).

o. Foreign Currency Transactions and Balances

Transactions in currencies other than USD are translated into USD at the rate prevailing at the transaction date. At the end of reporting period, all monetary assets and liabilities in currencies other than the USD are translated into USD at the middle exchange rates quoted by Bank Indonesia on that date. The resulting net foreign exchange gains or losses are recognized in the current year's consolidated statements of comprehensive income.

Keuntungan atau kerugian aktuarial diakui sebagai atau beban apabila pendapatan akumulasi keuntungan atau kerugian aktuarial neto yang belum diakui pada akhir tahun pelaporan sebelumnya melebihi jumlah yang lebih besar diantara 10% dari nilai kini imbalan pasti dan 10% dari nilai wajar aset program pada akhir periode pelaporan. Keuntungan atau kerugian diakui atas dasar metode garis lurus selama rata-rata sisa masa kerja karyawan yang diharapkan. Beban jasa lalu yang terjadi ketika memperkenalkan program imbalan pasti atau mengubah imbalan terhutang pada program imbalan pasti yang ada, diamortisasi selama periode sampai imbalan tersebut menjadi hak.

Perusahaan dan Entitas Anak mengakui keuntungan atau kerugian atas kurtailmen atau penyelesaian pada saat terjadinya. Kurtailmen terjadi jika entitas menunjukkan komitmennya untuk mengurangi secara signifikan jumlah pekerja yang ditanggung oleh program, atau mengubah ketentuan dalam program yang menyebabkan bagian yang material dari jasa masa depan pekerja tidak lagi memberikan imbalan atau memberikan imbalan yang lebih rendah. Sebelum menentukan dampak kurtailmen atau penyelesaian, Perusahaan dan Entitas Anak mengukur kembali kewajiban dengan menggunakan asumsi aktuarial yang berlaku.

SUMMARY OF SIGNIFICANT ACCOUNTING **POLICIES** (Continued)

The closing exchange rates used as of June 30, 2015 and December 31, 2014 were as follows (in full amount):

p. Employee Benefits

The Company and Subsidiaries determine their employee benefits liabilities under Labor Law No. 13/2003 dated March 25, 2003 ("the Law"). Under PSAK No. 24 (Revised 2010), the cost of employee benefits based on the Law is determined using the "Projected Unit Credit" actuarial valuation method.

Actuarial gains or losses are recognized as income or expense when the net cumulative unrecognized actuarial gains and losses at the end of the previous reporting year exceeded the higher of 10% of the defined benefit obligation and 10% of the fair value of plan assets at that date. These gains or losses are recognized on a straight-line basis method over the expected average remaining working lives of the employees. Past-service costs arising from the introduction of a defined benefit plan or changes in the benefits obligation of an existing plan are required to be amortized over the period until the benefits concerned become vested.

The Company and Subsidiaries recognize gains or losses on curtailment or settlement when such occurs. A curtailment occurs when an entity is demonstrably committed to making a significant reduction in the number of employees covered by a plan, or amends the terms of a defined benefit plan so that a significant element of future service by current employees will no longer qualify for benefits. or will qualify only for reduced benefits. Before determining the effect of a curtailment or settlement, the Company and Subsidiaries remeasure the obligation using current actuarial assumptions.

q. Pajak Penghasilan

Beban pajak penghasilan kini ditetapkan berdasarkan taksiran laba kena pajak periode berjalan.

Aset pajak kini dan liabilitas pajak kini dilakukan saling hapus jika dan hanya jika entitas memiliki hak yang dapat dipaksakan secara hukum untuk melakukan saling hapus jumlah yang diakui; dan bermaksud untuk menyelesaikan dengan dasar neto, atau merealisasikan aset dan menyelesaikan liabilitas secara bersamaan.

Aset dan liabilitas pajak tangguhan diakui atas perbedaan temporer antara aset dan liabilitas untuk tujuan komersial dan untuk tujuan perpajakan setiap tanggal pelaporan. Aset pajak tangguhan diakui untuk seluruh perbedaan temporer yang boleh dikurangkan, sepanjang besar kemungkinan perbedaan temporer yang boleh dikurangkan tersebut dapat dimanfaatkan untuk mengurangi laba fiskal pada masa yang akan datang. Liabilitas pajak tangguhan diakui atas semua perbedaan temporer kena pajak. Manfaat pajak di masa mendatang, seperti saldo rugi fiskal yang belum digunakan, diakui sejauh besar kemungkinan realisasi atas manfaat pajak tersebut.

Aset dan liabilitas pajak tangguhan diukur pada tarif pajak yang diharapkan akan digunakan pada periode ketika aset direalisasi atau ketika liabilitas dilunasi berdasarkan tarif pajak (dan peraturan perpajakan) yang berlaku atau secara substansial telah diberlakukan pada akhir periode pelaporan.

Aset pajak tangguhan dan liabilitas pajak tangguhan dilakukan saling hapus jika dan hanya jika entitas memiliki hak secara hukum untuk saling hapus aset pajak kini terhadap liabilitas pajak kini, dan aset pajak tangguhan dan liabilitas pajak tangguhan terkait dengan pajak penghasilan yang dikenakan oleh otoritas perpajakan atas entitas kena pajak yang sama atau entitas kena pajak berbeda yang bermaksud untuk memulihkan aset dan liabilitas pajak kini dengan dasar neto, atau merealisasikan aset dan menyelesaikan liabilitas secara bersamaan, pada setiap periode masa depan yang mana jumlah signifikan atas aset atau liabilitas pajak tangguhan diharapkan diselesaikan atau dipulihkan.

Jumlah tambahan pokok dan denda pajak berdasarkan Surat Ketetapan Pajak ("SKP") diakui sebagai pendapatan atau beban dalam laba rugi tahun berjalan.

q. Income Taxes

Current income tax expense is provided based on the estimated taxable income for the period.

Current tax assets and current tax liabilities are offset if, and only if, the entity has a legally enforceable right to set off the recognized amounts; and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax assets and liabilities are recognized for temporary differences between the financial and tax bases of assets and liabilities at each reporting date. Deferred tax assets are recognized for all deductible temporary differences to the extent it is probable that future taxable profit will be available against which the deductible temporary difference can be utilized. Deferred tax liabilities are recognized for all taxable temporary differences. Future tax benefits, such as the carry-forward of unused tax losses, are also recognized to the extent that realization of such benefits is probable.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liabilities settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the end of reporting period.

Deferred tax assets and deferred tax liabilities are offset if, and only if, the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity, or different taxable entities that intend either to settle current tax liabilities and assets on a net basis, or to realize the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Additional tax principal and penalty amounts based on Tax Assessment Letters ("SKP") are recognized as income or expense in the current year profit or loss.

Provisi ditentukan dengan mendiskontokan perkiraan arus kas masa depan, dengan suatu tingkat diskonto sebelum pajak yang mencerminkan penilaian pasar atas nilai waktu dari uang dan risiko yang terkait dengan liabilitas yang bersangkutan.

Provisi ditelaah pada setiap akhir periode pelaporan dan disesuaikan untuk mencerminkan estimasi terbaik yang paling kini. Jika arus keluar sumber daya untuk menyelesaikan kewajiban kemungkinan besar tidak terjadi, maka provisi dibatalkan.

Aset dan liabilitas kontinjensi tidak diakui dalam laporan keuangan konsolidasian. However, when further avenue is sought, such amounts are deferred if they meet the asset recognition criteria.

r. Earnings per Share

Basic earnings per share are computed by dividing net income attributable to the owners of the parent by the weighted average number of issued and outstanding shares of stock during the year.

s. Segment Information

A segment is a distinguishable component of the Company and Subsidiaries that is engaged either in providing certain products (business segment), or in providing products within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

t. Provisions and Contingencies

Provision is recognized if, as a result of a past event, the Company and Subsidiaries have a present legal or constructive obligation that can be reliably estimated, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows, at a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Provisions are reviewed at each end of reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

Contingent assets and liabilities are not recognized in the consolidated financial statements. Contingent liabilities are disclosed in the consolidated financial statements, unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are disclosed in the consolidated financial statements where an inflow of economic benefits is probable.

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING

Penyusunan laporan keuangan konsolidasian sesuai dengan Standar Akuntansi Keuangan di Indonesia mewajibkan manajemen untuk membuat pertimbangan, estimasi dan asumsi yang mempengaruhi jumlah-jumlah yang dilaporkan dalam laporan keuangan. Sehubungan dengan adanya ketidakpastian yang melekat dalam membuat estimasi, hasil sebenarnya yang dilaporkan di masa mendatang dapat berbeda dengan jumlah estimasi yang dibuat.

Perusahaan dan Entitas Anak mendasarkan asumsi dan estimasi pada parameter yang tersedia pada saat laporan keuangan disusun. Asumsi dan situasi mengenai perkembangan masa depan mungkin berubah akibat perubahan pasar atau situasi diluar kendali Perusahaan dan Entitas Anak. Perubahan tersebut dicerminkan dalam asumsi terkait pada saat terjadinya.

Pertimbangan, estimasi dan asumsi berikut ini dibuat oleh manajemen dalam rangka penerapan kebijakan akuntansi Perusahaan dan Entitas Anak yang memiliki pengaruh paling signifikan atas jumlah yang diakui dalam laporan keuangan konsolidasian:

Menentukan mata uang fungsional

Faktor-faktor yang dipertimbangkan dalam menentukan mata uang fungsional Perusahaan dan masing-masing Entitas Anak termasuk, antara lain, mata uang:

- yang paling mempengaruhi harga jual barang dan iasa;
- dari negara yang kekuatan persaingan dan peraturannya sebagian besar menentukan harga jual barang dan jasa entitas;
- yang paling mempengaruhi biaya tenaga kerja, bahan baku, dan biaya lain dari pengadaan barang atau jasa;
- yang mana dana dari aktivitas pendanaan dihasilkan; dan
- yang mana penerimaan dari aktivitas operasi pada umumnya ditahan.

Menentukan klasifikasi aset dan liabilitas keuangan

Perusahaan dan Entitas Anak menetapkan klasifikasi atas aset dan liabilitas tertentu sebagai aset keuangan dan liabilitas keuangan dengan mempertimbangkan apakah definisi yang ditetapkan PSAK No. 55 (Revisi 2011) dipenuhi.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of consolidated financial statements, in conformity with Indonesian Financial Accounting Standards, requires management to make judgments, estimations and assumptions that affect amounts reported therein. Due to the inherent uncertainty in making estimates, actual results reported in future periods may differ from those estimates.

The Company and Subsidiaries based their assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Company and Subsidiaries. Such changes are reflected in the assumptions as they occur.

The following judgments, estimates and assumptions made by management in the process of applying the Company and Subsidiaries' accounting policies are those most likely to have significant effects on the amounts recognized in the consolidated financial statements:

Determining functional currency

The factors considered in determining the functional currency of the Company and each of its Subsidiaries include, among others, the currency:

- that mainly influences sales prices for goods and services;
- of the country whose competitive forces and regulations mainly determine the sales prices of its goods and services;
- that mainly influences labor, material and other costs of providing goods or services;
- in which funds from financing activities are generated; and
- in which receipts from operating activities are usually retained.

<u>Determining classification of financial assets and financial liabilities</u>

The Company and Subsidiaries determine the classification of certain assets and liabilities as financial assets and financial liabilities by judging if they meet the definition set forth in PSAK No. 55 (Revised 2011).

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Dengan demikian, aset keuangan dan liabilitas keuangan diakui sesuai dengan kebijakan akuntansi Perusahaan dan Entitas Anak seperti diungkapkan pada Catatan 2.

Menentukan nilai wajar dan perhitungan amortisasi biaya perolehan dari instrumen keuangan

Perusahaan dan Entitas Anak mencatat aset dan liabilitas keuangan tertentu pada nilai wajar dan biaya perolehan diamortisasi, yang mengharuskan penggunaan estimasi akuntansi. Sementara komponen signifikan atas asumsi yang digunakan dalam perhitungan amortisasi biaya perolehan ditentukan menggunakan bukti obyektif yang dapat diverifikasi, jumlah nilai wajar atau amortisasi dapat berbeda bila Perusahaan dan Entitas Anak menggunakan metodologi penilaian atau asumsi yang berbeda. Perubahan tersebut dapat mempengaruhi secara langsung laba atau rugi Perusahaan dan Entitas Anak. Penjelasan lebih rinci diungkapkan dalam Catatan 42.

Menilai jumlah terpulihkan dari aset keuangan

Perusahaan dan Entitas Anak mengevaluasi akun piutang tertentu yang diketahui bahwa pelanggan tertentu tidak dapat memenuhi kewajiban keuangannya. Dalam hal tersebut, Perusahaan dan Entitas Anak menggunakan pertimbangan, berdasarkan fakta dan situasi yang tersedia, termasuk namun tidak terbatas pada, jangka waktu hubungan dengan pelanggan dan status kredit dari pelanggan berdasarkan catatan kredit dari pihak ketiga yang tersedia dan faktor pasar yang telah diketahui, untuk mencatat penyisihan spesifik atas pelanggan terhadap jumlah terutang guna mengurangi jumlah piutang yang diharapkan dapat diterima oleh Perusahaan dan Entitas Anak. Penyisihan spesifik ini dievaluasi kembali dan disesuaikan jika tambahan yang diterima mempengaruhi penyisihan atas penurunan nilai piutang. Penjelasan lebih rinci diungkapkan dalam Catatan 5.

Menilai penyisihan penurunan nilai pasar dan keusangan persediaan

Penyisihan penurunan nilai pasar dan keusangan persediaan diestimasi berdasarkan fakta dan situasi yang tersedia, termasuk namun tidak terbatas kepada, kondisi fisik persediaan yang dimiliki, harga jual pasar, estimasi biaya penyelesaian dan estimasi biaya yang timbul untuk penjualan. Provisi dievaluasi kembali dan disesuaikan jika terdapat tambahan informasi yang mempengaruhi total yang diestimasi.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

Accordingly, the financial assets and financial liabilities are accounted for in accordance with the Company and Subsidiaries' accounting policies disclosed in Note 2.

<u>Determining fair value and calculation of cost</u> amortization of financial instruments

The Company and Subsidiaries record certain financial assets and liabilities at fair value and amortized costs, which requires the use of accounting estimates. While significant components of asumptions used in the calculation of cost amortization were determined using verifiable objective evidence, the fair value or amortization amount would differ if the Company and Subsidiaries utilized different valuation methodology or assumptions. Such changes would directly affect the Company and Subsidiaries' profit or loss. Further details are disclosed in Note 42.

Assessing recoverable amounts of financial assets

The Company and Subsidiaries evaluate specific accounts receivable where they have information that certain customers are unable to meet their financial obligations. In these cases, the Company and Subsidiaries use judgment, based on available facts and circumstances, including but not limited to, the length of their relationship with the customer and the customer's current credit status based on any available third party credit reports and known market factors, to record specific provisions for customers against amounts due to reduce their receivable amounts to that the Company and Subsidiaries expect to collect. These specific provisions are re-evaluated and adjusted as additional information received affects the provision for impairment. Further details are disclosed in Note 5.

Assessing allowance for decline in market value and obsolescence of inventories

Allowance for decline in market value and obsolescence of inventories is estimated based on available facts and circumstances, including but not limited to, the inventories own physical condition, their market selling prices, estimated costs of completion and estimated costs to be incurred for their sales. The provisions are re-evaluated and adjusted as additional information received affects the amount estimated.

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Pada tanggal 30 Juni 2015 dan 31 Desember 2014, Perusahaan dan Entitas Anak menilai bahwa tidak ada indikasi penurunan nilai pasar dan keusangan persediaan.

Menentukan metode penyusutan dan estimasi umur manfaat aset tetap

Biaya perolehan aset tetap disusutkan dengan menggunakan metode garis lurus berdasarkan taksiran masa manfaat ekonomisnya. Manajemen mengestimasi masa manfaat ekonomis aset tetap 2 tahun sampai dengan 25 tahun. Ini adalah umur yang secara umum diharapkan dalam industri dimana Perusahaan dan Entitas Anak menjalankan bisnisnya. Perubahan tingkat pemakaian dan perkembangan teknologi dapat mempengaruhi masa manfaat ekonomis dan nilai sisa aset, dan karenanya biaya penyusutan masa depan mungkin direvisi. Penjelasan lebih rinci diungkapkan dalam Catatan 12.

Menilai penurunan nilai aset non-keuangan tertentu

PSAK No. 48 (Revisi 2009) mensyaratkan bahwa penilaian penurunan nilai dilakukan pada aset non-keuangan tertentu apabila terdapat kejadian atau perubahan keadaan yang mengindikasikan bahwa nilai tercatat tidak dapat diperoleh kembali. Faktor-faktor yang dianggap penting oleh Perusahaan dan Entitas Anak yang dapat memicu penelaahan atas penurunan nilai adalah sebagai berikut:

- (a) kinerja yang relatif kurang signifikan terhadap expected historical atau hasil operasional yang diharapkan dari proyek masa depan;
- (b) perubahan signifikan dalam cara penggunaan aset yang diperoleh atau strategi bisnis secara keseluruhan; dan
- (c) tren industri atau ekonomi yang negatif secara signifikan.

Kerugian akibat penurunan nilai diakui apabila nilai tercatat aset non-keuangan melebihi total yang dapat dipulihkan. Menentukan total yang dapat dipulihkan atas aset-aset tersebut membutuhkan estimasi atas arus kas yang diharapkan dapat dihasilkan dari penggunaan lanjutan dan disposisi akhir dari aset tersebut.

Pada tanggal 30 Juni 2015 dan 31 Desember 2014, Perusahaan dan Entitas Anak menilai bahwa tidak ada indikasi penurunan aset tetap dan aset tidak lancar lainnya. PT INDAH KIAT PULP & PAPER Tbk

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

As of June 30, 2015 and December 31, 2014, the Company and Subsidiaries assessed that there was no indication of decline in market value and obsolescence of their inventories.

<u>Determining depreciation method and estimated useful</u> lives of fixed assets

The costs of fixed assets are depreciated on a straightline basis over their estimated useful lives. Management properly estimates the useful lives of these fixed assets to be within 2 years to 25 years. These are common life expectancies applied in the industries in which the Company and Subsidiaries conduct their business. Changes in the expected level of usage and technological development could impact on the economic useful lives and the residual values of these assets, and therefore future depreciation charges could be revised. Further details are disclosed in Note 12.

Assessing impairment of certain non-financial assets

PSAK No. 48 (Revised 2009) requires that an impairment review be performed on certain non-financial assets whenever events or changes in circumstances indicate that the carrying value may not be recoverable. The factors the Company and Subsidiaries consider important that could trigger an impairment review include the following:

- (a) significant underperformance relative to the expected historical or project future operating results;
- (b) significant changes in the manner of use of the acquired assets or the strategy for overall business;
- (c) significant negative industry or economic trends.

An impairment loss is recognized whenever the carrying amount of a non-financial asset exceeds its recoverable amount. Determining the recoverable amount of such assets requires the estimation of cash flows expected to be generated from the continued use and ultimate disposition of such assets.

As of June 30, 2015 and December 31, 2014, the Company and Subsidiaries assessed that there was no indication of impairment of their fixed assets and other non-current assets.

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Estimasi beban pensiun dan imbalan kerja

Penentuan biaya pensiun dan liabilitas imbalan kerja Perusahaan dan Entitas Anak bergantung pada pemilihan asumsi yang digunakan oleh aktuaris independen dalam menghitung jumlah-jumlah tersebut. Asumsi tersebut termasuk antara lain, tingkat diskonto, tingkat kenaikan gaji tahunan, tingkat pengunduran diri karyawan tahunan, tingkat cacat, umur pensiun dan tingkat kematian. Hasil aktual yang berbeda dari asumsi yang ditetapkan Perusahaan dan Entitas Anak yang memiliki pengaruh lebih dari 10% liabilitas imbalan pasti, ditangguhkan dan diamortisasi secara garis lurus selama rata-rata sisa masa kerja karyawan. Sementara Perusahaan dan Entitas Anak berkeyakinan bahwa asumsi tersebut adalah wajar dan sesuai, perbedaan signifikan pada hasil aktual atau perubahan signifikan dalam asumsi yang ditetapkan Perusahaan dan Entitas Anak dapat mempengaruhi secara material liabilitas diestimasi atas pensiun dan imbalan kerja dan beban imbalan kerja neto. Penjelasan lebih rinci diungkapkan dalam Catatan 25.

Menentukan provisi atas pajak penghasilan

Pertimbangan signifikan dilakukan dalam menentukan provisi atas pajak penghasilan badan. Terdapat transaksi dan perhitungan tertentu yang penentuan pajak akhirnya adalah tidak pasti sepanjang kegiatan usaha normal. Perusahaan dan Entitas Anak mengakui liabilitas atas pajak penghasilan badan berdasarkan estimasi apakah akan terdapat tambahan pajak penghasilan badan.

Perusahaan dan Entitas Anak menelaah aset pajak tangguhan pada setiap tanggal pelaporan dan mengurangi nilai tercatat sepanjang tidak ada kemungkinan bahwa laba kena pajak memadai untuk mengkompensasi sebagian atau seluruh aset pajak tangguhan. Perusahaan dan Entitas Anak juga menelaah waktu yang diharapkan dan tarif pajak atas pemulihan perbedaan temporer dan menyesuaikan pengaruh atas pajak tangguhan yang sesuai. Penjelasan lebih rinci diungkapkan dalam Catatan 34.

Mengevaluasi perjanjian sewa

Perusahaan dan Entitas Anak menandatangani perjanjian sewa sebagai *lessee*. Manajemen melakukan penilaian dalam menentukan apakah semua risiko signifikan dan manfaat kepemilikan aset sewaan dialihkan kepada Perusahaan. Sewa guna usaha dimana Perusahaan memperoleh seluruh risiko signifikan dan manfaat kepemilikan aset sewaan diklasifikasikan sebagai sewa pembiayaan, jika sebaliknya maka diklasifikasikan sebagai sewa operasi. Penjelasan lebih rinci diungkapkan dalam Catatan 20.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

Estimate of pension cost and employee benefits

The determination of the Company and Subsidiaries' liabilities and costs for employee benefits is dependent on their selection of certain assumptions used by the independent actuaries in calculating such amounts. Those assumptions include among others, discount rates, annual salary increase rate, annual employee turn-over rate, disability rate, retirement age and mortality rate. Actual results that differ from the Company and Subsidiaries' assumptions whose effects are more than 10% of the defined benefit obligations are deferred and amortized on a straight-line basis over the expected average remaining service years of the qualified employees. While the Company and Subsidiaries believe that their assumptions are reasonable and appropriate, significant differences in the Company and Subsidiaries' actual results or significant changes in the Company and Subsidiaries' assumptions may materially affect their estimated liabilities for pension and employee benefits and net employee benefits expense. Further details are disclosed in Note 25.

Determining provision for income tax

Significant judgment is involved in determining provision for corporate income tax. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Company and Subsidiaries recognize liabilities for expected corporate income tax issues based on estimates of whether additional corporate income tax will be due.

The Company and Subsidiaries review their deferred tax assets at each reporting date and reduce the carrying amounts to the extent it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilized. The Company and Subsidiaries also review the expected timing and tax rates upon reversal of temporary differences and adjust the impact of deferred tax accordingly. Further details are disclosed in Note 34.

Evaluating lease agreements

The Company and Subsidiaries have entered into lease agreements as lessee. The management exercises judgment in determining whether all significant risk and rewards of ownership of the leased property are transferred to the Company. Leases wherein the Company acquires all significant risks and rewards of ownership of the leased property are accounted for as finance leases, otherwise they are accounted for as operating leases. Further details are disclosed in Note 20.

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Mengevaluasi provisi dan kontinjensi

Perusahaan dan Entitas Anak terlibat dalam berbagai proses hukum dan pajak. Manajemen melakukan penilaian untuk membedakan antara provisi dan kontinjensi terutama melalui konsultasi dengan penasehat hukum Perusahaan dan Entitas Anak yang menangani proses hukum dan pajak tersebut. Perusahaan dan Entitas Anak mempersiapkan provisi yang sesuai untuk proses hukum saat ini atau kewajiban konstruktif, jika ada, sesuai dengan kebijakan provisinya. Dalam pengakuan dan pengukuran provisi, manajemen mengambil risiko dan ketidakpastian.

Dalam situasi tertentu, Perusahaan dan Entitas Anak tidak dapat menentukan secara pasti jumlah liabilitas pajak mereka pada saat ini atau masa depan karena proses pemeriksaan, atau negosiasi dengan otoritas perpaiakan. Ketidakpastian timbul terkait dengan interpretasi dari peraturan perpajakan yang kompleks serta jumlah dan waktu dari penghasilan kena pajak di masa depan. Dalam menentukan jumlah yang harus diakui terkait dengan liabilitas pajak yang tidak pasti, Perusahaan dan Entitas Anak menerapkan pertimbangan yang sama yang akan mereka gunakan dalam menentukan jumlah cadangan yang harus diakui sesuai dengan PSAK 57, "Provisi, Liabilitas Kontinjensi, dan Aset Kontinjensi". Perusahaan dan Entitas Anak membuat analisa untuk semua posisi pajak terkait dengan pajak penghasilan untuk menentukan jika liabilitas pajak untuk manfaat pajak yang belum diakui harus diakui.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

Evaluating provisions and contingencies

The Company and Subsidiaries are involved in various legal and tax proceedings. The managements exercise their judgments to distinguish between provisions and contingencies mainly through consultation with the Company and Subsidiaries' legal counsel handling those proceedings. The Company and Subsidiaries set up appropriate provisions for their present legal or constructive obligations, if any, in accordance with their policies on provisions. In recognizing and measuring provisions, the managements take risk and uncertainty into account.

In certain circumstances, the Company and Subsidiaries may not be able to determine the exact amount of their current or future tax liabilities due to ongoing investigations by, or negotiations with, the taxation authority. Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. In determining the amount to be recognized in respect to an uncertain tax liability, the Company and Subsidiaries apply similar considerations as they would use in determining the amount of a provision to be recognized in accordance with PSAK 57, "Provisions, Contingent Liabilities and Contingent Assets." The Company and Subsidiaries perform an analysis of all tax positions related to income taxes to determine if a tax liability for unrecognized tax benefit should be recognized.

41. SIGNIFICANT LITIGATION AND CLAIMS (Continued)

b. On March 3, 2000, PT Beloit Indonesia, Beloit Asia Pacific (L) Inc. (BAPL), Beloit Asia Pacific Pte. Ltd. (BAP), Beloit Corporation (BC), the parent company of BAPL and BAP and Harnishfeger Industries Inc. (Harnishfeger), the parent company of BC (collectively referred to as "Beloit Entities") and the Company and Asia Pulp & Paper Company Ltd. (APP) entered into a settlement deed (Settlement Deed) in connection with a sale and purchase agreement dated December 18, 1996 in respect of paper making machines that were bought by the Company.

The Settlement Deed was approved by the U.S. Bankruptcy Court by its order dated March 22, 2000. Pursuant to the terms of the Settlement Deed, the Company issued and APP guaranteed a promissory note with a face value of USD110.0 million to BC (the Note).

Upon the non-satisfaction of the Note, BC commenced an action in the New York State Courts to claim on the Note. The New York State Court awarded judgment to BC (the Judgment). APP's appeal against the Judgment was denied on or about October 25, 2002.

Pursuant to the Judgment awarded by the New York State Court, David J. Boland (Boland), the administrator of the Beloit Corporation (in Liquidation) commenced enforcement proceedings in various jurisdictions including Texas and Wisconsin, United States of America, England, Scotland, Finland and possibly Germany and Austria. On May 23, 2001, Boland also filed a Writ of Summons in the High Court of Singapore against Indah Kiat Finance (IV) Mauritius Ltd., APP and the Company based on the Judgment. This action was discontinued on June 2, 2003.

41. GUGATAN DAN TUNTUTAN YANG MATERIAL (Lanjutan)

Pada tanggal 6 April 2001, the Administrator of the Beloit Corporation (dikenal sebagai the Beloit Liquidating Trust ("BLT") mendaftarkan gugatannya sehubungan dengan proses kepailitan untuk mendapatkan pernyataan dari Pengadilan Kepailitan Amerika Serikat untuk daerah Delaware bahwa ia memegang hak milik yang bebas dari segala tuntutan atas beberapa bagian mesin dan perlengkapan sehubungan dengan mesin-mesin yang masih dikuasai oleh pihak ketiga. Pada tanggal 15 Juni 2001, Perusahaan dan APP mengajukan permohonan untuk menolak gugatan BLT. Pada tanggal 28 September 2001, Pengadilan Kepailitan Amerika Serikat memutuskan untuk menunda pemeriksaan sampai adanva proses arbitrase sesuai dengan ketentuan dalam Perjanjian Perdamaian. BLT belum memulai gugatan arbitrase apapun.

Pada tanggal 12 Maret 2002, BLT mengajukan gugatan di Pengadilan Tinggi Inggris untuk mengeksekusi Putusan. Sampai saat ini, belum ada langkah apapun yang diambil untuk mendapatkan default judgment. BLT juga harus mengajukan permohonan untuk menunjuk kurator atas perlengkapan-perlengkapan di Inggris yang dibeli dari Asia Pulp & Paper Company (UK) Ltd. (APP UK) pada bulan Maret 2002. Putusan sela yang memutuskan untuk membekukan perlengkapanperlengkapan yang menjadi objek gugatan diperoleh BLT dan melarang Perusahaan dan APP untuk memindahkan atau melakukan sesuatu terhadap perlengkapan-perlengkapan tersebut. Putusan sela ini masih berlaku. Sampai dengan tanggal laporan ini, tidak ada perkembangan atas masalah ini.

BLT juga telah memperoleh putusan sela (yang mempunyai dampak yang sama dengan pembekuan Inggris) membekukan perlengkapan-perlengkapan yang saat ini berada di Skotlandia pada gugatan yang didaftarkan di Pengadilan pada tanggal 15 Mei 2005 di Skotlandia. BLT menuduh bahwa perlengkapan-perlengkapan tersebut telah dibeli oleh atau dibeli atas nama APP atau Perusahaan dan dengan demikian BLT mempunyai hak untuk mengeksekusi Putusan terhadap perlengkapan tersebut. APP dan Perusahaan membantah keterkaitan mereka dengan perlengkapan dan tidak ikut serta dalam gugatangugatan tersebut. Putusan sela masih berlaku. Sampai dengan tanggal laporan ini, tidak ada perkembangan atas masalah ini.

41. SIGNIFICANT LITIGATION AND CLAIMS (Continued)

On April 6, 2001, the Administrator of the Beloit Corporation (known as the Beloit Liquidating Trust ("BLT") filed a complaint in connection with the bankruptcy proceedings seeking a declaration from the U.S. Bankruptcy Court for the District of Delaware that it holds clear title to certain parts and equipment relating to the machinery that is still held by third parties. On June 15, 2001, the Company and APP applied to dismiss the complaint. On September 28, 2001, the U.S. Bankruptcy Court stayed the complaint pending arbitration proceedings in accordance with the terms of the Settlement Deed. BLT has not yet initiated any arbitration proceedings.

On March 12, 2002, a claim was issued in the High Court of England by BLT attempting to enforce the Judgment. To date, no steps have been taken to enter default judgment. BLT has also applied to appoint a receiver over equipment in England that was purchased by Asia Pulp & Paper Company (UK) Ltd. (APP UK) in March 2002. A freezing injunction was obtained by BLT in relation to the equipment and prevented the Company and APP from removing or dealing with the equipment. This injunction currently remains in place. Up to the date of this report, there have been no further developments on this matter.

BLT has also obtained an interim interdict (which has the same effect as an English freezing injunction) over equipment currently based in Scotland in proceedings filed in the Court of Session on May 15, 2005 in Scotland. BLT contends that the equipment has been purchased by or on behalf of APP or the Company and that it has the right to enforce the Judgment against the equipment. APP and the Company deny any connection to the equipment and have not taken any part in these proceedings. The interim interdict remains in place. Up to the date of this report, there have been no further developments on this matter.

41. GUGATAN DAN TUNTUTAN YANG MATERIAL (Lanjutan)

Pada tanggal 29 September 2004, Con-Lloyd Limited, perusahaan pergudangan, mengajukan permohonan kepada pengadilan Inggris untuk mengeluarkan mesin-mesin yang ada di dalam gudangnya. Beloit, APP UK dan Con-Lloyd Limited telah mendapatkan kesepakatan untuk masalah ini dan Pengadilan memberikan persetujuan atas kesepakatan antara Beloit, APP UK dan Con-Lloyd Limited.

c. Pada bulan Agustus 2002, Bank One, N.A. (Bank One) mengajukan tuntutan di Pengadilan Negeri Amerika Serikat di Nothern District of Illinois terhadap Perusahaan, PT Pabrik Kertas Tjiwi Kimia Tbk (Tjiwi Kimia) dan APP. Klaim terhadap Perusahaan dan Tiiwi Kimia adalah atas kegagalan untuk membayar dua (2) promissory notes yang diterbitkan oleh Perusahaan dan Tjiwi Kimia, pada tanggal 25 April 1998 dengan nilai masing-masing sebesar USD21,8 juta dan USD16,2 juta. APP juga menjadi tergugat karena APP menjadi penjamin kedua promissory notes tersebut. Promissory notes tersebut diterbitkan untuk Beloit Corporation sebagai pembayaran sebagian atas mesin dan promissory notes diserahkan kepada First National Bank of Chicago, yang sekarang bernama Bank One.

Pada akhir tahun 2004, JP Morgan Chase (JP Morgan) mengambil alih Bank One dan berhasil dalam permohonannya untuk menggantikan Bank One sebagai Penggugat didalam gugatan.

Pada tanggal 14 Oktober 2009, Hakim Yang Mulia James F. Holderman mengabulkan mosi untuk summary jugdment yang diajukan JP Morgan melawan Perusahaan dan Tjiwi Kimia.

Pada tanggal 21 April 2010, Hakim Yang Mulia James F. Holderman mengeluarkan Memorandum Opinion And Order yang mengabulkan *Summary Judgment* untuk JP Morgan melawan APP. On September 29, 2004, Con-Lloyd Limited, a warehouse company, applied to the English Courts to dispose of the machinery in its possession. Beloit, APP UK and Con-Lloyd Limited have reached agreement in respect to the matter and the Court sanctioned the proposed arrangement between Beloit, APP UK and Con-Lloyd Limited.

c. In August 2002, Bank One, N.A. (Bank One) filed a complaint in the United States District Court for the Northern District of Illinois against the Company, PT Pabrik Kertas Tjiwi Kimia Tbk (Tjiwi Kimia) and APP. The claim against the Company and Tjiwi Kimia was in respect to their failure to pay two (2) promissory notes issued by the Company and Tjiwi Kimia that as of April 25, 1998, had a face value of USD21.8 million and USD16.2 million, respectively. APP was named as co-defendant because it was the guarantor for both promissory notes. The promissory notes were originally issued to Beloit Corporation as part-payment for machinery and they were subsequently assigned to the First National Bank of Chicago. the predecessor of Bank One.

In late 2004, JP Morgan Chase (JP Morgan) acquired Bank One and subsequently successfully applied to Court to substitute Bank One as the plaintiffs in the complaint.

On October 14, 2009 The Honorable James F. Holderman granted JP Morgan's motion for summary judgment against the Company and Tjiwi Kimia.

On April 21, 2010, The Honorable James F. Holderman issued the Memorandum Opinion And Order that granted summary judgment in favor of JP Morgan against APP. The Company, Tjiwi Kimia and APP filed an appeal against the Honorable Holderman's orders granting summary judgment submitted by JP Morgan.

41. GUGATAN DAN TUNTUTAN YANG MATERIAL (Lanjutan)

JP Morgan telah mengeluarkan beberapa citations untuk menemukan aset-aset terhadap Perusahaan, Tjiwi Kimia dan APP. Perusahaan, Tjiwi Kimia dan APP telah mengajukan permohonan untuk menunda pelaksanaan citations tersebut dengan dasar bahwa telah ada perintah dari pengadilan di Indonesia yang melarang pemberian informasi yang terkait dengan keberadaan aset-aset para tergugat. Hakim Brown menolak permohonan tersebut. Keputusan Hakim Brown telah diajukan banding kepada Hakim Holderman dan kepada Pengadilan Banding oleh para tergugat. Seluruh citations untuk menemukan aset-aset telah diberhentikan.

Pada tanggal 1 Juni 2012, Pengadilan Banding mengkonsolidasikan banding atas summary judgment dengan banding atas keputusan Hakim Holderman yang menolak keberatan yang diajukan oleh Perusahaan, Tjiwi Kimia dan APP sehubungan dengan penolakan Hakim Brown atas motion to stay.

Pada tanggal 21 Febuari 2013, Pengadilan Banding menguatkan keputusan Hakim Ketua Holderman untuk memberikan summary judgment kepada JP Morgan. Pengadilan Banding tidak membahas mengenai masalah apakah penolakan motion to stay citations dari JP Morgan untuk menemukan assetaset dari Perusahaan, Tjiwi Kimia dan APP oleh Hakim ketua Holderman telah tepat sehubungan dengan adanya dugaan bahwa pengajuan banding diduga premature.

Pada tanggal 26 Juni 2013, Perusahaan, Tjiwi Kimia, dan APP mengajukan permohonan writ of certiorari kepada Mahkamah Agung Amerika Serikat untuk membahas pendapat dari Pengadilan Banding. Pada tanggal 17 September 2013, permohonan writ of certiorari telah ditarik. Sehubungan dengan penarikan permohonan writ of certiorari, Shenton World Partners menggantikan JP Morgan selaku penggugat.

d. Gryphon Domestic VI, LLC, OCM Opportunities Fund II, L.P., OCM Opportunities Fund III, L.P., Columbia/ HCA Master Retirement Trust, Gramercy Emerging Markets Fund dan General Electric Capital Corporation (Penggugat) telah memulai upaya-upaya hukum melawan Perusahaan dan beberapa perusahaan lainnya yang berkaitan. 41. SIGNIFICANT LITIGATION AND CLAIMS (Continued)

JP Morgan issued several citations to discover assets against the Company, Tjiwi Kimia, and APP.. The Company, Tjiwi Kimia, and APP filed a motion to stay the execution of the citations against them on the ground that an injunction issued in Indonesia prevented the disclosure of the requested information. Magistrate Judge Brown denied the motion to stay. This decision was appealed to Judge Holderman and the Court of Appeals. All citations to discover assets have been dismissed.

On June 1, 2012, the Court of Appeals consolidated the appeal regarding the entry of summary judgment with the appeal of the denial of the motion to stay.

On February 21, 2013, the Court of Appeals affirmed Chief Judge Holderman's orders granting JP Morgan Morgan summary judgment. The Court of Appeals did not reach the issue of whether Chief Judge Holderman properly denied the motion to stay JP Morgan's citations to discover assets against the Company, Indah Kiat and APP finding that the appeal was premature.

On June 26, 2013, the Company, Tjiwa Kimia, and APP filed a petition for writ of certiorari with the United States Supreme Court to review the Court of Appeal's opinion. On September 17, 2013, the Petition for Writ of Certiorari has been withdrawn. Following withdrawal of the Petition for Writ of Certiorari, Shenton World Partners was substituted for JP Morgan as plaintiff.

d. On September 13, 2002, Oaktree Capital Management L.L.C. (Oaktree), Gramercy Advisors, L.L.C. and General Electric Capital Corporation filed a claim in the New York State Supreme Court against the Company, PT Lontar Papyrus Pulp & Paper Industry (Lontar), Asia Pulp & Paper Company Ltd. (APP), APP International Finance Company B.V. (APP Finance) and Indah Kiat International Finance Company B.V. (Indah Kiat B.V.) (collectively the "Defendants") in respect to certain notes issued by APP Finance (the Lontar Notes) and Indah Kiat B.V. (the Indah Kiat 02 and 06 Notes). The claims in respect to the Indah Kiat 02 and 06 Notes amounted to USD78.8 million and USD92.9 million, respectively. The claim in respect to the Lontar Notes amounted to USD147.0 million. Judaments in relation to these notes were entered in favor of the Plaintiffs on April 13, 2004 and February 24, 2006.

By order dated June 1, 2004, Warner Mansion Fund was substituted into the action for plaintiff General Electric Capital Corporation. By order dated July 20, 2009, Upwood Investments Limited was substituted into the action for plaintiff Gramercy Emerging Markets Fund. By order dated November 23, 2009, Bernal Ventures Ltd. was substituted into the action for plaintiffs Gryphon Domestic VI, L.L.C., OCM Opportunities Fund II, L.P., and Columbia/HCA Master Retirement Trust.

As of the date of this report, no further actions are being taken by the Plaintiffs to enforce the Judgments obtained in New York.

41. GUGATAN DAN TUNTUTAN YANG MATERIAL (Lanjutan)

e. Pada tanggal 17 Februari 2004, US Bank National Association (US Bank) mengajukan gugatan melawan Perusahaan, APP International Finance Company B.V., PT Lontar Papyrus Pulp & Paper Industry, Asia Pulp & Paper Co. Ltd. dan Indah Kiat International Finance Company B.V. (Tergugat).

Gugatan yang didaftarkan oleh US Bank dalam kapasitasnya sebagai wali amanat pengganti untuk mendapatkan utang pokok, bunga dan bunga akibat wanprestasi atas wesel yang diterbitkan oleh APP International Finance Company B.V. dan Indah Kiat International Finance Company B.V. US Bank sebagai Pengugat juga mengajukan klaim untuk ganti rugi, uang jasa dan biaya-biaya dan untuk declaratory dan injunctive relief berkaitan dengan proses hukum di Indonesia.

Pada tanggal 13 Agustus 2004, US Bank mendaftarkan permohonan untuk sebagian *summary judgment* atas pembayaran pokok dan bunga yang sudah jatuh tempo.

Pada tanggal 7 Januari 2005, Pengadilan memenangkan mosi US Bank untuk Summary Judgment sebesar USD1,157 miliar. Pada tanggal 2 Maret 2005, atas permohonan Tergugat, Pengadilan mengurangi total yang diputuskan menjadi USD839,0 juta. Putusan dikuatkan oleh pengadilan banding pada tanggal 26 April 2006 dan mosi untuk *reargument* atau, secara alternatif, mosi banding ke New York Court of Appeals ditolak pada tanggal 28 September 2006. Para Tergugat telah mengajukan mosi banding ke New York Court of Appeals dan pada tanggal 10 Januari 2007, New York Court of Appeals menolak mosi banding Tergugat sehubungan dengan US Bank judgment dikarenakan putusan tingkat banding yang akan ditinjau ulang masih belum final, akan tetapi penolakan tersebut tidak serta merta menghapus kemungkinan para Tergugat untuk meminta kepada the Court of Appeals meninjau kembali putusan, setelah syarat mengenai putusan yang final atau perintah telah berlaku.

41. SIGNIFICANT LITIGATION AND CLAIMS (Continued)

e. On February 17, 2004, US Bank National Association (US Bank) filed a lawsuit against the Company, APP International Finance Company B.V., PT Lontar Papyrus Pulp & Paper Industry, Asia Pulp & Paper Co. Ltd. and Indah Kiat International Finance Company B.V. (the Defendants).

The lawsuit filed by US Bank in its capacity as successor Trustee was to recover loan principal, interest and default interest due on the notes that were issued by APP International Finance Company B.V. and Indah Kiat International Finance Company B.V. US Bank as Plaintiff also alleges claims for indemnification, fees and costs and for declaratory and injunctive relief relating to proceedings in Indonesia.

On August 13, 2004, US Bank filed an application for partial summary judgment on the payment of principal and interest due.

On January 7, 2005, the Court granted US Bank's motion for Summary Judgment in the sum of USD1.157 billion. On March 2, 2005, upon the Defendants' application, the Court reduced the Judgment sum to USD839.0 million. The judgment was affirmed by an appellate court on April 26, 2006 and a motion for reargument or, alternatively, leaves to appeal to New York Court of Appeals, was denied on September 28, 2006. The Defendants then filed a motion for leave to appeal to the New York Court of Appeals and on January 10, 2007, the New York Court of Appeals dismissed the Defendants motion for leave to appeal in relation to the US Bank judgment because the appellate division order for which review was sought lacked finality. The dismissal is without prejudice to the Defendants ability to request that the Court of Appeals review the judgment after the requisite final judgment or order is entered.

41. GUGATAN DAN TUNTUTAN YANG MATERIAL (Lanjutan)

Pada atau sekitar Agustus 2009, US Bank memulai berbagai upaya untuk mengeksekusi putusan, seperti mendaftarkan putusan di beberapa negara bagian lain dan melayangkan pemberitahuan larangan dan permintaan *discovery* kepada para Tergugat dan lainnya.

Para Tergugat telah mengajukan perlawanan atas upaya-upaya US Bank untuk mengeksekusi putusan, namun di antara permohonan tersebut yang telah dikabulkan oleh pengadilan pada tanggal 13 Juli 2010, pengadilan menerbitkan *preliminary injunction* yang melarang pembayaran berdasarkan *MRA* Indah Kiat dan pada tanggal 7 Juni 2011, pengadilan telah mengeluarkan putusan *turnover*.

Berdasarkan perjanjian tertanggal 27 Desember 2012, Para Tergugat telah mencapai kesepakatan dengan US Bank.

Perusahaan belum dapat mengetahui dampak dari kasus litigasi terhadap Perusahaan karena status kasus litigasi yang belum final.

Berdasarkan PSAK 60, "Instrumen Keuangan: Pengungkapan", terdapat tingkatan hirarki nilai wajar sebagai berikut:

- (a) harga kuotasian (tidak disesuaikan) dalam pasar aktif untuk aset atau liabilitas yang identik (tingkat 1),
- (b) input selain harga kuotasian yang termasuk dalam tingkat 1 yang dapat diobservasi untuk aset atau liabilitas, baik secara langsung (misalnya harga) atau secara tidak langsung (misalnya derivasi dari harga pasar) (tingkat 2), dan
- (c) input untuk aset atau liabilitas yang bukan berdasarkan data pasar yang dapat diobservasi (input yang tidak dapat diobservasi) (tingkat 3).

Metode dan asumsi berikut ini digunakan untuk mengestimasi nilai wajar untuk setiap kelompok instrumen keuangan sepanjang nilai tersebut dapat diestimasi:

Aset dan liabilitas keuangan jangka pendek:

 Instrumen keuangan jangka pendek dengan jatuh tempo satu tahun atau kurang.

Instrumen keuangan ini sangat mendekati nilai tercatat mereka karena jatuh tempo mereka dalam jangka pendek (tingkat 2).

Aset dan liabilitas keuangan jangka panjang:

 Liabilitas keuangan jangka panjang dengan suku bunga variabel (liabilitas sewa pembiayaan, pinjaman bank jangka panjang dan utang obligasi).

Nilai wajar dari liabilitas keuangan ini ditentukan dengan mendiskontokan arus kas masa datang menggunakan suku bunga yang berlaku dari transaksi pasar yang dapat diamati untuk instrumen dengan persyaratan, risiko kredit dan jatuh tempo yang sama (tingkat 2).

 Instrumen keuangan yang tidak dikuotasikan dalam pasar aktif.

Instrumen keuangan ini dicatat berdasarkan nilai nominal dikurangi penurunan nilai karena nilai wajarnya tidak dapat diukur secara handal.

42. FINANCIAL INSTRUMENTS (Continued)

Based on PSAK 60, "Financial Instruments: Disclosures," there are levels of fair value hierarchy as follows:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1),
- (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from market prices) (level 2), and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The following methods and assumptions were used to estimate the fair value of each class of financial instrument for which it is practicable to estimate such value:

Short-term financial assets and liabilities:

• Short-term financial instruments with remaining maturities of one year or less.

These financial instruments approximate to their carrying amounts largely due to their short-term maturities (level 2).

Long-term financial assets and liabilities:

• Long-term variable-rate financial liabilities (lease liabilities, long-term bank loans and bonds payable).

The fair value of these financial liabilities is determined by discounting future cash flows using applicable rates from observable current market transactions for instruments with similar terms, credit risk and remaining maturities (level 2).

Financial instruments not quoted on an active market.

These financial instruments are carried at their nominal amount less any impairment losses since their fair value cannot be reliably measured

42. INSTRUMEN KEUANGAN (Lanjutan)

Adalah tidak praktis untuk memperkirakan nilai wajar dari instrumen keuangan dikarenakan tidak memiliki jangka waktu pembayaran yang tetap meskipun tidak diharapkan dapat diselesaikan dalam waktu dua belas (12) bulan setelah tanggal laporan posisi keuangan (tingkat 3).

 Aset dan liabilitas keuangan jangka panjang lainnya (wesel bayar dan pinjaman jangka panjang).

Estimasi nilai wajar didasarkan pada nilai diskonto dari arus kas masa datang yang disesuaikan untuk mencerminkan risiko pihak lawan (untuk aset keuangan) dan risiko kredit Perusahaan dan Entitas Anak (untuk liabilitas keuangan) dan menggunakan suku bunga pasar (tingkat 2).

43. PENGARUH PENERAPAN PSAK 55 (REVISI 2011)

Pada tanggal 30 Juni 2015 dan 31 Desember 2014, penerapan PSAK No. 55 (Revisi 2011) (Catatan 2f) menyebabkan penyesuaian berikut ini:

42. FINANCIAL INSTRUMENTS (Continued)

It is not practical to estimate the fair value of these financial instruments because there are no fixed repayment terms although they are not expected to be settled within twelve (12) months after the end of the reporting period (level 3).

 Other long-term financial assets and liabilities (notes payable and long-term loans).

Estimated fair value is based on discounted value of future cash flows adjusted to reflect counterparty risk (for financial assets) and the Company and Subsidiaries' own credit risk (for financial liabilities) and using market rates (level 2).

43. EFFECT OF ADOPTION OF PSAK 55 (REVISED 2011)

44. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

Financial Risk Management

The Company and Subsidiaries are affected by various financial risks, including market risk (including foreign currency risk, interest rate risk and price fluctuation risk), credit risk and liquidity risk. The Company and Subsidiaries' overall risk management objectives are to effectively manage these risks and minimize potential adverse effects on their financial performance. The Board of Directors reviews and agrees with the policies for managing each of these risks, which are summarized below, and also monitors the market price risks arising from all financial instruments.

a. Credit risk

The Company and Subsidiaries' exposure to credit risk arises from the default of other parties, with maximum exposure equal to the nominal value of their financial assets, as follows:

44. TUJUAN DAN KEBIJAKAN MANAJEMEN RISIKO **KEUANGAN** (Lanjutan)

Perusahaan dan Entitas Anak memiliki dan menerapkan kebijakan dan prosedur pemberian kredit untuk memastikan adanya evaluasi kredit yang hati-hati dan pengawasan akun piutang yang aktif.

Perusahaan dan Entitas Anak mengelola risiko kredit yang terkait dengan simpanan di bank dengan memonitor reputasi, peringkat kredit dan membatasi risiko agregat dari masing-masing pihak dalam kontrak. Tidak terdapat konsentrasi risiko kredit yang signifikan terkait dengan piutang usaha, hal ini disebabkan keragaman pelanggan.

Analisis umur aset keuangan yang belum jatuh tempo atau tidak mengalami penurunan nilai dan yang lewat jatuh tempo pada akhir periode pelaporan tetapi tidak mengalami penurunan nilai adalah sebagai berikut:

PT INDAH KIAT PULP & PAPER Tbk AND SUBSIDIARIES NOTES TO INTERIM CONSOLIDATED FINANCIAL **STATEMENTS** JUNE 30, 2015 (UNAUDITED) AND DECEMBER 31, 2014 (AUDITED) AND FOR THE SIX MONTH'S PERIOD ENDED JUNE 30, 2015 AND 2014 (UNAUDITED) (Amounts in tables are expressed in thousands of United States Dollar, unless otherwise stated)

44. FINANCIAL RISK MANAGEMENT OBJECTIVES AND **POLICIES** (Continued)

The Company and Subsidiaries have in place credit policies and procedures to ensure prudent credit evaluation and active account monitoring.

The Company and Subsidiaries manage credit risk exposed from their deposits with banks by monitoring reputation, credit ratings and limiting the aggregate risk to any individual counterparty. There is no significant concentration of credit risk in respect to trade receivables due to their diverse customer base.

The analysis of the age of financial assets that were neither past due nor impaired and past due but not impaired at the end of the reporting period was as follows:

44. TUJUAN DAN KEBIJAKAN MANAJEMEN RISIKO KEUANGAN (Lanjutan)

b. Risiko nilai tukar mata uang asing

Perusahaan dan Entitas Anak terkena risiko perubahan nilai tukar mata uang asing terutama dalam Rupiah Indonesia, Euro Eropa, Yen Jepang dan Yuan Cina atas biaya, aset dan liabilitas tertentu yang timbul karena aktivitas pendanaan dan kegiatan operasional sehari-hari. Informasi mengenai aset dan liabilitas moneter Perusahaan dan Entitas Anak dalam mata uang asing disajikan pada Catatan 36.

Perusahaan dan Entitas Anak memonitor dan mengelola risiko ini dengan menyepadankan liabilitas keuangan dalam mata uang asing dengan aset keuangan dalam mata uang asing terkait dan melakukan pembelian atau penjualan mata uang asing saat diperlukan.

Jika pada tanggal 30 Juni 2015, Dolar AS melemah/menguat 5% terhadap mata uang Rupiah Indonesia, Euro Eropa, Yen Jepang dan Yuan Cina dengan seluruh variabel lain tetap, maka laba neto konsolidasi untuk periode yang berakhir pada tanggal 30 Juni 2015 akan menjadi lebih rendah/tinggi sebesar sekitar USD33,9 juta.

c. Risiko tingkat suku bunga

Perusahaan dan Entitas Anak didanai dengan berbagai pinjaman bank, surat utang dan obligasi yang dikenakan bunga. Oleh karena itu, eksposur Perusahaan dan Entitas Anak terhadap risiko pasar sehubungan dengan perubahan tingkat suku bunga terutama atas liabilitas jangka panjang serta aset dan liabilitas yang dikenakan bunga.

Kebijakan Perusahaan dan Entitas Anak adalah untuk memperoleh tingkat suku bunga yang paling menguntungkan tanpa meningkatkan eksposur terhadap mata uang asing dengan mengelola biaya pinjamannya menggunakan kombinasi antara utang dan liabilitas jangka panjang dengan tingkat suku bunga tetap dan mengambang.

Pada tanggal 30 Juni 2015, jika suku bunga lebih tinggi/rendah 50 basis poin dengan semua variabel lain tetap, maka laba periode berjalan akan menjadi lebih rendah/tinggi sekitar USD3,5 juta, yang terutama timbul sebagai akibat beban bunga yang lebih tinggi/rendah atas pinjaman dengan suku bunga mengambang.

44. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

b. Foreign exchange risk

The Company and Subsidiaries are exposed to foreign currency exchange rate movements primarily in Indonesian Rupiah, European Euro, Japanese Yen and China Yuan on certain expenses, assets and liabilities that arise from financing activities and daily operations. Information about monetary assets and liabilities of the Company and Subsidiaries in foreign currencies are disclosed in Note 36.

The Company and Subsidiaries monitor and manage the risk by matching the foreign currency financial liabilities with relevant foreign currency financial assets and buying or selling foreign currencies at spot rates when necessary.

If as of June 30, 2015, US Dollar had weakened/strengthened by 5% against Indonesian Rupiah, European Euro, Japanese Yen and China Yuan with all other variables held constant, consolidated net income for the period ended June 30, 2015 would have been decreased/ increased by approximately USD33.9 million.

c. Interest rate risk

The Company and Subsidiaries are financed through interest-bearing bank loans, notes and bonds. Therefore, the Company and Subsidiaries' exposures to market risk for changes in interest rates relates primarily to their long-term borrowing obligations and interest-bearing assets and liabilities.

The Company and Subsidiaries' policies are to obtain the most favorable interest rates available without increasing their foreign currency exposure by managing their interest cost using a mixture of fixed and floating rate debts and long-term borrowings.

As of June 30, 2015, if the interest rates had been 50 basis points higher/lower with all variables held constant, profit for the period would have been lower/higher by approximately USD3.5 million, mainly as a result of higher/lower interest expense on floating rate loans.

44. TUJUAN DAN KEBIJAKAN MANAJEMEN RISIKO KEUANGAN (Lanjutan)

d. Risiko likuiditas

Manajemen risiko likuiditas yang hati-hati berimplikasi menyiapkan kas dan setara kas yang cukup untuk mendukung aktivitas usaha secara tepat waktu. Perusahaan dan Entitas Anak menjaga keseimbangan antara kontinuitas penerimaan piutang dan fleksibilitas dengan menggunakan utang bank dan pinjaman lainnya.

Tabel dibawah menunjukkan analisis jatuh tempo liabilitas keuangan Perusahaan dan Entitas Anak dalam rentang waktu yang menunjukkan jatuh tempo kontraktual untuk semua liabilitas keuangan non-derivatif, yang diperlukan dalam pemahaman jatuh tempo kebutuhan arus kas. Jumlah yang diungkapkan dalam tabel adalah arus kas kontraktual yang tidak terdiskonto (tidak termasuk beban bunga pinjaman masa yang akan datang).

d. Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and cash equivalents to support business activities on a timely basis. The Company and Subsidiaries maintain a balance between continuity of accounts receivable collectibility and flexibility through the use of bank loans and other borrowings.

The following table analyzes the Company and Subsidiaries' financial liabilities into relevant maturity groupings based on their contractual maturities for all non-derivative financial liabilities, which are essential in understanding the timing of cash flows requirements. The amounts disclosed in the table are the contractual undiscounted cash flows (excluding future interest expense).
